PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Delivered on-site technical support for UPS systems and associated monitoring solutions, performing installations, commissioning, and scheduled preventive maintenance.
- Diagnosed and resolved complex technical issues on battery systems and PDUs, implementing corrective actions to ensure full system functionality and compliance with service standards.
- Provided customers with clear technical guidance and best-practice recommendations, identifying system improvement opportunities to enhance operational efficiency.
- Oversaw subcontractor work during installations, verifying adherence to specified requirements and Schneider Electric's operational safety protocols.
- Participated in a **24/7 on-call rota**, responding to urgent customer issues at short notice and travelling countrywide as required.
- Managed system configuration updates and coordinated User Acceptance Testing (UAT) for enterprise business systems, ensuring smooth post-go-live transitions.
- Analyzed logs and performed shell scripting on **Linux** systems to automate routine tasks and monitor system performance.

SKILLS

Field Service – Installation, Commissioning, Preventive Maintenance, Corrective Repairs, Technical Support, On-Call Rotation

Products – UPS Systems, STS, PDUs, Battery Systems, Monitoring Solutions

Technical Skills – Electrical Engineering, Electronics, Diagnostic Skills, Problem-Solving, Analytical Skills, Troubleshooting

Software & Tools – Personal Computer Skills, Electronic Mail, Record Keeping, Word Processing, Spreadsheets, Graphics

Safety & Compliance – Operational Safety, Safety Policies, Procedures, Regulatory Awareness

General – Communication Skills, Interpersonal Skills, Independent Work, Collaboration, Travel Willingness

PROJECTS

On-Site Support for Power Infrastructure

- Delivered comprehensive on-site technical services for a portfolio of enterprise power infrastructure clients, including installation, commissioning, and routine maintenance of UPS and PDU units.
- Responded to and resolved **critical hardware failures** and performance degradation issues, ensuring minimal disruption to client operations and adherence to strict service level agreements.
- Provided detailed technical guidance and system health reports to client stakeholders, proactively identifying opportunities for upgrades and lifecycle enhancements.

Automated Production Monitoring and Alerting

- Developed **Python scripts** to automate the parsing of system logs and operational data from enterprise applications, reducing manual analysis time by approximately **40%**.
- Engineered data pipelines to consolidate monitoring metrics from various sources into a centralized dashboard, improving visibility into system health for operations teams.
- Implemented alerting mechanisms based on predefined thresholds, enabling faster incident detection and response for P1/P2 issues.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
