PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed incoming service calls and customer emails, accurately logging and prioritising requests within the **service desk system** to meet SLA objectives.
- Coordinated and dispatched **field engineers** for reactive service visits and scheduled planned maintenance, effectively managing engineer diaries and ensuring timely attendance.
- Provided customers with regular, proactive updates on their service requests and engineer status, maintaining clear communication throughout the resolution process.
- Escalated complex technical issues to internal teams, collaborating to achieve prompt and effective resolutions for customer security system faults.
- Supported the Service Desk team by monitoring service queues, ensuring requests progressed within target response times and maintaining high customer satisfaction.
- Assisted in the coordination of **field engineers** and internal teams to deliver a seamless customer experience, supporting overall service performance and SLA commitments.
- Contributed to the development of **runbooks** and internal documentation for common support issues, improving knowledge sharing within the Service Desk team.

SKILLS

Customer Service – Call Handling, Service Desk Operations, Customer Communication, Email Support, Professionalism.

Technical Support – Electronic Security Systems, CCTV, Intruder Alarms, Access Control, System Monitoring.

Tools & Platforms – Service Desk Software, Ticketing Systems, Microsoft Excel, Microsoft Teams, CASH by Mentor.

Operations Management – Service Request Management, Engineer Dispatch, Schedule Coordination, SLA Management, Prioritisation.

Soft Skills – Organisation, Communication (Verbal & Written), Problem-Solving, Attention to Detail, Teamwork, Independent Work.

PROJECTS

HCL Service Desk Operations Enhancement

- Developed and implemented a refined process for logging and prioritising incoming service requests within the **ticketing system**, reducing average ticket resolution time by **15%**.
- Created standardised communication templates for customer updates on service requests, ensuring consistent and professional interaction across all support channels.
- Assisted in coordinating the schedules of a 10-person field engineer team, optimising deployment for planned maintenance visits to improve operational efficiency.

Customer Support Workflow Automation

- Automated the generation of daily/weekly reports on service request status and engineer utilisation using **Python scripting** and **SQL queries** against internal databases.
- Built a **Power BI dashboard** to visualise key service desk metrics including call volume, resolution times, and SLA adherence, providing actionable insights to management.
- Documented the new automated reporting process, enabling the operations team to independently generate and interpret performance data.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
