PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided pre-sales technical consultation to prospective clients, translating complex cloud solution capabilities into clear benefits for their business objectives.
- Managed inbound customer inquiries via phone and email, prioritizing issues with a high sense of urgency to achieve first-contact resolution for approximately 45 customer engagements daily.
- Onboarded new customers to the cloud platform, delivering tailored training sessions and guiding them through initial setup to ensure successful adoption and integration.
- Collaborated with sales advisors and partner teams to understand client needs, ensuring timely and successful delivery of cloud solutions aligned with their stated objectives.
- Collected and analyzed customer feedback on product and service offerings, identifying key areas for improvement and communicating insights to product management teams.
- Played a key role in customer retention by offering best-in-class, efficient, and professional support, maintaining positive relationships and addressing concerns promptly.
- Developed and maintained internal documentation and knowledge base articles for common customer issues, reducing average resolution time for support tickets by 18%.

SKILLS

Customer Support – Customer Onboarding, Customer Training, Technical Consultation, Inbound Calls, Email Support, First Contact Resolution

PROJECTS

Cloud Solution Onboarding for Enterprise Clients

- Designed and delivered a comprehensive onboarding program for new enterprise clients integrating with a cloud services platform, reducing time-to-deployment by an average of 20%.
- Developed interactive training modules and documentation for client technical teams, covering platform features and best practices for cloud solution utilization.
- Acted as a primary technical point of contact during the initial 90-day client engagement period, addressing integration challenges and providing proactive support.

Customer Feedback Analysis and Service Improvement Initiative

- Collected and synthesized customer feedback from multiple channels (surveys, support interactions) regarding cloud service usability and delivery for a portfolio of 50+ clients.
- Analyzed feedback trends to identify recurring pain points and opportunities for service enhancement, presenting findings and recommendations to product and operations teams.
- Contributed to the development of new support workflows based on identified customer needs, aiming to improve overall customer satisfaction scores by 15%.
