HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided operational support for the **Osapiens platform** and **SAP BTP applications**, investigating and resolving transaction failures across supplier onboarding and compliance workflows.
- Managed incidents, problems, and service requests related to supplier data management and procurement workflows, coordinating escalations between business and technical teams.
- Developed **Python scripts** to automate data ingestion and reporting for supplier compliance monitoring, improving data availability for operational dashboards.
- Configured and monitored **workflow exceptions** within the application support environment, identifying root causes for process failures and implementing corrective actions.
- Maintained and updated **support documentation**, Standard Operating Procedures (SOPs), and knowledge articles for application support processes and common issues.
- Executed **SQL queries** against PostgreSQL and Oracle databases to perform data analysis, investigate transaction anomalies, and validate data integrity for supplier compliance.
- Containerized application components using **Docker** and deployed them to **AWS EC2 instances**, ensuring stable and scalable runtime environments for backend services.

SKILLS

Core Competencies – Application Support, Supplier Compliance, Sustainability Programs, Supply Chain Processes, Procurement Workflows, Data Management, Incident Management, Problem Management, Service Request Management, Stakeholder Management, Documentation, SOPs, Knowledge Management, Continuous Improvement.

Platforms & Applications – Osapiens, SAP BTP, SAP Integration, PostgreSQL, Oracle, MySQL, Linux, AWS (EC2, S3, CloudWatch).

Technical Skills – SQL, Python Scripting, API Troubleshooting, Interface Integration, Workflow Monitoring, Exception Management, Transaction Monitoring, Root Cause Analysis, Docker, Git, Jenkins.

Methodologies – Agile, Scrum, ITIL Processes, Change Management.

Domain Knowledge – Supply Chain Sustainability, Supplier Onboarding, Supplier Data Management, EUDR, ESG, Sustainability Regulations.

PROJECTS

Supplier Compliance Dashboard Enhancement

- Developed a **Power BI dashboard** to provide real-time visibility into supplier onboarding status and compliance metrics for a global supply chain operations team.
- Engineered **SQL queries** and Power Query transformations to extract, clean, and model data from multiple sources, including SAP BTP and legacy systems.
- Collaborated with business analysts to define key performance indicators and reporting requirements, ensuring the dashboard met operational needs and supported sustainability program goals.

Automated Transaction Reconciliation Service

- Built a **Python-based service** that automated the reconciliation of supplier transaction data, identifying discrepancies between system records and expected outcomes.
- Implemented robust error handling and logging using **Python's logging module** and integrated with **Splunk** for monitoring and alerting on reconciliation failures.
- Designed and deployed the service on **AWS Lambda**, processing approximately 5,000 transaction records daily with a focus on reliability and performance.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
