HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Configured and tested **DeltaV graphics**, Control Modules, and Equipment Modules to support new biotechnology process integrations.
- Developed and validated **DeltaV batch layer configurations**, ensuring adherence to S-88 Batch Standard requirements for automated manufacturing workflows.
- Executed **change controls** for DeltaV system modifications, meticulously documenting all updates and coordinating UAT with cross-functional teams.
- Provided critical **production support** for an enterprise client's manufacturing automation systems, resolving P1/P2 incidents and maintaining operational uptime.
- Automated data extraction and reporting tasks using **Python scripting** on Linux environments, reducing manual effort for operational teams by approximately 15 hours per week.
- Designed and implemented **Java Spring Boot REST APIs** for internal system integrations, enabling seamless data exchange between disparate enterprise applications.
- Containerized **Java applications** using **Docker** and deployed to **AWS EC2** instances, streamlining the development-to-production pipeline.

SKILLS

Automation Engineering – DeltaV, S-88 Batch Standard, GAMP, Process Automation, Commissioning

Software Development – Java, Spring Boot, REST APIs, Python, SQL, Docker

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Jenkins, Git, Linux

Operations & Support – Production Support, Incident Response, Change Control, SLA Management, Splunk, Dynatrace

Data & Analytics – Power BI, Tableau, DAX, Power Query, R, pandas, NumPy, scikit-learn

Life Sciences Domain – Biotechnology Process, Pharma Batch Automation, P&IDs;

PROJECTS

DeltaV Automation for Bioprocessing Unit

- Designed and implemented **DeltaV Equipment Modules** and Phases for a new upstream bioprocessing unit, integrating sensor data and control logic.
- Configured **batch sequences** within DeltaV according to the **S-88 standard**, enabling automated execution of complex fermentation cycles.
- Participated in the site **commissioning** of the new unit, performing Factory Acceptance Testing (FAT) and Site Acceptance Testing (SAT) for automation components.

Automated Production Reporting System

- Developed a **Python-based** system to automatically extract operational data from enterprise databases (**PostgreSQL**) and generate daily production reports.
- Created **Power BI dashboards** to visualize key performance indicators from the automated reports, providing stakeholders with actionable insights into manufacturing efficiency.
- Automated the deployment of new report configurations using **shell scripting**, reducing the time for report updates from 2 days to 4 hours.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
