PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Supported validation activities for laboratory computerised systems by preparing and executing validation protocols and test scripts under senior guidance, ensuring adherence to GMP.
- Assisted in the generation and maintenance of validation documentation, including test records and evidence, for biopharma client systems within a regulated environment.
- Participated in risk assessments and change control processes, contributing to document reviews and ensuring compliance with company procedures.
- Coordinated system and test data availability with laboratory teams to facilitate seamless test execution for validation protocols.
- Worked with Laboratory, Quality, and IT teams to resolve validation-related issues and supported inspection and audit readiness activities.
- Developed Python scripts to automate data extraction and reporting for enterprise systems, reducing manual effort by approximately **30%**.
- Managed production support for enterprise Java applications, responding to P1/P2 incidents and ensuring SLA adherence across multiple systems.

SKILLS

Core CSV/Validation – CSV, SDLC, GMP, Validation Protocols, Test Scripts, Risk Assessments, Change Controls, Data Integrity, Audit Readiness

Laboratory Systems – LIMS, CDS, ELN, LabVantage

Programming & Scripting – Python, Java, SQL

Backend Technologies – Spring Boot, REST APIs, Hibernate, JPA

Cloud & DevOps – AWS, EC2, S3, Lambda, CloudWatch, Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Monitoring & Logging – Splunk, Dynatrace

PROJECTS

Laboratory System Validation Support (HCL Technologies)

- Assisted in the validation of a new Laboratory Information Management System (LIMS) for a financial-services client, focusing on data integrity and GMP compliance.
- Prepared and executed test scripts for user acceptance testing (UAT) of the LIMS system, documenting results and defect tracking in Jira.
- Collaborated with client operations teams to gather system requirements and coordinate UAT activities, ensuring alignment with business needs.

Enterprise System Integration & Automation (HCL Technologies)

- Developed Python scripts to automate ETL processes for an enterprise ERP system, integrating data from PostgreSQL to Oracle and improving data refresh frequency by **2x**.
- Designed and implemented REST APIs using Java Spring Boot to facilitate cross-system integrations between the ERP and a payments operations dashboard.
- Supported change control management for system configuration updates, coordinating testing efforts and providing post-go-live support for interconnected business systems.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
