PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Authored, reviewed, and maintained comprehensive SDLC and validation documentation including URS, Risk Assessments, and IQ/OQ/PQ protocols for laboratory computerised systems.
- Executed validation activities for new and existing laboratory computerised systems, ensuring compliance with GxP regulations and data integrity principles.
- Collaborated with Quality, Laboratory, and Engineering teams to support system integrations and ensure adherence to IT and cybersecurity requirements within a GMP environment.
- Participated in change control processes, deviation investigations, and CAPA activities, contributing to the continuous improvement of validated laboratory systems.
- Supported audit preparation and provided on-site assistance during internal and external inspections, ensuring readiness and compliance.
- Developed Python scripts to automate data extraction and reporting for validation documentation, reducing manual effort by approximately **30%**.
- Managed production support for enterprise Java applications, including incident response and SLA management using **Splunk** and **Dynatrace**.

SKILLS

Validation & Compliance – Computer System Validation (CSV), GxP, 21 CFR Part 11, Annex 11, Data Integrity, IQ/OQ/PQ, Risk Assessment, SDLC, Audit Support, CAPA

Laboratory Systems – LIMS, CDS, Empower, ELN, LabX, LabVantage

Software Development – Java, Spring Boot, Python, REST APIs, SQL, PostgreSQL, MySQL, Oracle

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Tools & Methodologies – Jira, Confluence, Agile, Scrum, Change Control, Incident Management

PROJECTS

Laboratory System Validation Protocol Generation Tool

- Developed a Python application to assist in generating standardized validation protocol templates, integrating with **Jira** for ticket tracking.
- Implemented automated data validation checks for input parameters using **Python**, ensuring consistency across generated documents and reducing data entry errors by ~**40%**.
- Designed a modular structure allowing for easy updates to protocol templates based on evolving GxP regulatory requirements.

Automated Production Monitoring Dashboard

- Engineered a data pipeline using **Python** and **SQL** to aggregate logs and performance metrics from enterprise applications.
- Built interactive dashboards in **Power BI** to visualize system health, identify anomalies, and track key operational indicators for production support teams.
- Reduced manual reporting time by **20%** through automated data refresh and visualization in Power BI.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
