PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Installed and configured network hardware including **access switches**, **core switches**, and **server farm switches**, adhering to established cabling standards (TIA-568) and fiber testing protocols.
- Performed break-fix activities, repairing or replacing faulty network equipment and software according to OEM recommendations, including peripheral cabling such as patch cords for line interface units.
- Executed site surveys, including wireless LAN surveys, to document all in-scope equipment and related peripherals, ensuring accuracy and compliance with client and OEM standards using **MS Visio** for network diagrams and CMDB data.
- Managed the complete lifecycle of network hardware replacements, including un-racking defective units, performing RMA processes, installing replacement hardware, and repatching copper and fiber cables.
- Troubleshot issues across **WAN/LAN/WLAN** network and Contact Center devices, acting as a local point of contact for escalated incidents and coordinating with NOC and local vendors.
- Supported HCL Network team by providing troubleshooting assistance, knowledge sharing, and remote support for network equipment inventory and spares management.
- Containerized network management tools and diagnostic utilities using **Docker** for consistent deployment across various customer environments and development workstations.

SKILLS

Networking Hardware – Ethernet Cables, Fiber Cables, Switches (Access, Core, Distribution, Server Farm), Routers, Firewalls, CSU/DSU, Modems

Network Standards & Testing – TIA-568 Standard, Fiber Testing Equipment

Troubleshooting & Support – Break Fix, MACD (Move, Add, Change, Delete), RMA, Configuration Wiping, Incident Response, Root Cause Analysis, WAN/LAN/WLAN, Contact Center Network

Documentation & Tools – MS Visio, Network Diagrams, CMDB, SecureCRT, PUTTY, WebEx, Skype, Teams, LogicMonitor, Netscout, Tornado, Prime

Operating Systems & Scripting – Linux, Shell Scripting, AWS (EC2, S3, Lambda, CloudWatch)

Cabling & Physical Installation – Patch Cords, Rack Installation, Hardware Labeling, Cable Repatching

PROJECTS

Enterprise Network Infrastructure Deployment

- Executed the physical installation and configuration of network hardware, including **routers** and **switches**, across multiple enterprise sites to support business operations.
- Performed comprehensive site surveys and documented existing network infrastructure using **MS Visio**, identifying areas for upgrade and ensuring compliance with industry standards.
- Managed the entire process for replacing defective network hardware, from un-racking and shipping old equipment to installing new units and verifying connectivity.

Network Device Configuration Management & Automation

- Developed Python scripts to automate the process of wiping configurations from network devices prior to redeployment or RMA, reducing manual effort by approximately **40%**.
- Configured and tested network devices including **access switches** and **firewall modules**, ensuring adherence to security policies and operational requirements using **SecureCRT**.
- Contributed to the creation of network diagrams and documentation for system changes, supporting compliance and knowledge transfer within the IT operations team.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
