# HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

## PROFESSIONAL EXPERIENCE — 3.5 YEARS

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Managed outreach for password, access, and security compliance issues, coordinating remediation with stakeholders and escalating complex cases to Cyber Security specialists.
- Reviewed access logs and security information reports to identify potential compliance gaps and security issues requiring immediate action.
- Translated technical security information and complex compliance requirements into clear, actionable business language for C-suite and senior leadership.
- Supported incident response activities by monitoring security alerts and assisting with initial triage and data gathering for ongoing investigations.
- Partnered with Cyber Security, Technology, and Risk teams to reinforce security controls and ensure adherence to compliance mandates.
- Developed **Python scripts** to automate the generation of **compliance reports**, reducing manual processing time by approximately **30%**.
- Containerized the security reporting tool using **Docker** and deployed it to an **AWS EC2** instance, ensuring consistent environments and simplified deployment.

## SKILLS

**Cyber Security** – Security Access Management, Compliance, Remediation, Risk Management, Controls, Identity and Access Management, Cyber Security Governance, Security Monitoring, Incident Response

**Data Analysis & Reporting** – Access Logs, Security Information, Compliance Reports, Analytical Skills, Problem-Solving

**Programming & Scripting** – Python, SQL

**Cloud & DevOps** – AWS, Docker, CI/CD

**Financial Services Domain** – Banking, Regulated Environment

**Soft Skills** – Communication, Stakeholder Management, Business Language Translation

## PROJECTS

### Access Control Auditing System

- Developed a **Python**-based system to analyze user access logs from various enterprise applications, identifying unauthorized access patterns.
- Implemented **SQL** queries against a PostgreSQL database to extract and aggregate user activity data, supporting audit trail requirements.
- Generated automated reports detailing access violations and policy non-compliance for review by the security operations team.

### Security Compliance Dashboard Automation

- Built a **Power BI** dashboard to visualize key security compliance metrics and access-related issues, consolidating data from multiple sources.
- Designed **DAX measures** to calculate compliance adherence rates and track remediation progress, providing actionable insights to management.
- Automated the data refresh process using **Power Query**, ensuring the dashboard always reflected the latest security posture.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin** Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India** 2021

## CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
