PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Configured and administered **Microsoft Entra ID** and associated **Identity Governance** services, managing user lifecycles and role assignments for over 5,000 enterprise accounts.
- Developed and implemented **PowerShell automation scripts** to streamline the creation of security groups and access packages, reducing manual processing time by approximately **40%**.
- Supported **Single Sign-On (SSO) integrations** using **SAML, OAuth 2.0, and OpenID Connect** for a portfolio of 15+ internal and external applications.
- Troubleshot and resolved **IAM incidents** and service requests, including application access issues and identity synchronization errors, maintaining an average resolution time of **under 4 hours** for P1 incidents.
- Collaborated with application development teams to integrate new services with **Microsoft Entra ID**, guiding them on **RBAC** implementation and access entitlement reviews.
- Wrote and maintained technical documentation for IAM processes, including runbooks for incident response and knowledge articles for common troubleshooting steps, improving team knowledge base coverage by **30%**.
- Used **SQL** to query and analyze user access data for audit reporting and to support troubleshooting of application integration issues, ensuring compliance with regulatory requirements.

SKILLS

Identity & Access Management – Microsoft Entra ID, Azure Active Directory, Identity Governance, Single Sign-On (SSO), SAML, OAuth 2.0, OpenID Connect, RBAC, Access Governance, Identity Lifecycle Management, MFA, Privileged Access Management

Automation & Scripting – PowerShell, Python, Shell Scripting

Cloud Platforms – Microsoft Azure, AWS (EC2, S3, Lambda, CloudWatch)

Databases – SQL, PostgreSQL, MySQL, Oracle

Development & Operations – Java Spring Boot, REST APIs, Docker, Jenkins, Git, Jira, Linux, Splunk, Dynatrace

PROJECTS

Enterprise IAM Automation Framework

- Designed and implemented a **PowerShell framework** for automating the onboarding and offboarding of users within **Microsoft Entra ID**, supporting a team of 8 administrators.
- Developed reusable modules for managing **security groups** and **access packages**, reducing the average time for new application integrations from 3 days to 6 hours.
- Integrated the framework with a **Jira Service Desk** ticketing system to automatically trigger user provisioning and de-provisioning workflows based on ticket status.

Application Access Governance Dashboard

- Created a **Power BI dashboard** to visualize user access rights and entitlements across key enterprise applications, aiding in access governance reviews for compliance.
- Wrote complex **DAX measures** and **Power Query** scripts to extract and transform data from various identity sources, including Active Directory and application-specific logs.
- Collaborated with security and operations teams to define key metrics and reporting requirements, delivering actionable insights that identified over **500 orphaned accounts**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
