PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Supported workforce tracking across employees, staff augmentation resources, and external consultants by maintaining and improving existing processes and documentation for the Technology group.
- Analyzed Technology travel and expense (T&E;) spending, identifying trends and variances to prepare reporting that supported budget oversight and adherence to company policies.
- Collaborated with Procurement to oversee third-party vendor relationships and technology expenditure, coordinating procurement activities for software licensing and hardware equipment.
- Created and maintained **Power BI** dashboards and scorecards to monitor Technology performance against key performance indicators (KPIs) and report variances to management.
- Partnered with Finance to reconcile headcount and procurement expenditure against approved budgets and forecasts, analyzing discrepancies and highlighting issues requiring management attention.
- Coordinated procurement activities and monitored adherence to established approval and governance requirements, working with stakeholders on contract lifecycle management and purchase orders.
- Containerized backend services using **Docker** and deployed them to **AWS EC2** instances, managing configuration and basic resource allocation for predictable rollout.

SKILLS

Business Management – Workforce Planning, Technology Procurement, Travel & Expense Analysis, Financial Reporting, Governance, Vendor Management, Contract Lifecycle Management, Third-Party Risk Management, Purchase Orders, Invoicing.

Data Analysis & Reporting – Excel, PowerPoint, Power BI, Tableau, Visio, Data Interpretation, Trend Analysis, KPI Monitoring, Financial Analysis, Management Reporting.

Tools & Platforms – ServiceNow, Coupa, Concur, Jira, Confluence, Git, Jenkins.

Technical Concepts – Technology Products, Services, Cost Drivers, Agile Methodologies, Scrum, Software Licensing, Hardware Equipment, Professional Services.

Cloud & Containerization – AWS (EC2, S3, Lambda, CloudWatch), Docker.

PROJECTS

Technology Financial Operations Dashboard

- Developed a **Power BI** dashboard to visualize technology spend against budget, incorporating data from procurement and HR systems to provide real-time insights.
- Built automated data extraction and transformation routines using **Python** and **SQL** (PostgreSQL) to consolidate financial data from disparate sources into a unified data model for reporting.
- Designed and implemented custom **DAX** measures to calculate key financial metrics, enabling stakeholders to track project expenditures and identify cost-saving opportunities.

Technology Workforce Planning & Reporting Automation

- Automated the generation of monthly headcount reports using **Python** scripting, consolidating data from HR systems and reducing manual reporting effort by approximately 15 hours per cycle.
- Created interactive visualizations in **Power BI** to represent workforce distribution, hiring trends, and staff augmentation ratios for technology leadership.
- Integrated with internal ticketing systems via REST APIs to track and report on the status of open position requests and recruitment pipelines.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
