PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed daily client support operations, resolving queries on product suites and troubleshooting billing issues for **100+ hotel partners**.
- Served as the primary point of contact for a portfolio of **20 key hotel accounts**, ensuring seamless client experience and driving high levels of satisfaction through proactive communication.
- Analyzed and interpreted client performance data using **Sojern's internal analytics tools**, providing actionable campaign recommendations to improve platform utilization by an average of **15%**.
- Coordinated user-focused onboarding and training for new hotel clients, equipping them for long-term success and contributing to a **10% increase in initial platform adoption rates**.
- Resolved client escalations by collaborating with internal technical and sales teams, ensuring swift and effective solutions that maintained a **95% CSAT score** for escalated issues.
- Developed new concepts and strategies for client engagement, contributing to a **5% reduction in churn risk** across assigned accounts by identifying and mitigating low utilization patterns.
- Partnered closely with internal stakeholders across **Sales and Technical teams** to streamline operational processes and contribute to project-based initiatives supporting evolving business needs.

SKILLS

Client Services – Client Retention, Customer Support, Account Management, Client Onboarding, Escalation Management, Customer Satisfaction (CSAT), Net Promoter Score (NPS)

Productivity & Collaboration – Documentation, Multitasking, Cross-functional Collaboration, Global Teams, Adaptability, Proactive Initiative, Problem-Solving

PROJECTS

Client Onboarding Program Enhancement (HCL Technologies)

- Designed and implemented a streamlined onboarding program for enterprise clients, reducing time-to-first-feature from **6 weeks to 9 days**.
- Built a Python-based CLI tool for clients to validate feature definitions against platform schemas, catching approximately **70% of schema errors** at write time.
- Conducted technical walkthroughs and provided documentation for client data teams, improving their understanding of platform integration patterns.

Customer Support Workflow Automation (HCL Technologies)

- Automated daily reporting tasks for support operations using Python scripts, consolidating data from multiple sources into actionable summaries for **15+ support agents**.
- Developed a ticketing system integration with internal communication channels (e.g., Slack), improving ticket status visibility and reducing average response times by **20%**.
- Documented common troubleshooting steps and solutions, creating a knowledge base that decreased ticket resolution time for recurring issues by **12%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS
