PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Automated user onboarding and offboarding processes by developing PowerShell scripts, reducing manual intervention by **40%** for HR and IT teams.
- Enhanced existing identity management tools, specifically integrating **Saviynt** and **OneIdentity Active Roles Server**, to streamline user provisioning and deprovisioning workflows.
- Resolved complex identity-related issues across the organization by performing root cause analysis on AD and IAM system logs, ensuring timely resolution for **over 500 critical user accounts**.
- Contributed to strategic roadmaps for IAM systems, focusing on enhancing **Active Directory** security posture and lifecycle management for enterprise applications.
- Prepared detailed documentation for **audits**, including standards, methods, and environment diagrams, and acted as a **Point of Contact (POC)** for audit inquiries.
- Supported IT DevOps staff in **Active Directory migration tasks** for various IT teams, ensuring smooth transitions and minimal disruption to end-users.
- Managed the lifecycle of identities, entitlements, and roles across multiple systems and applications, implementing **RBAC (Role-Based Access Control)** principles for improved security.

SKILLS

Identity & Access Management – Active Directory, Saviynt, OneIdentity Active Roles Server, Okta, Sailpoint

Scripting & Automation – PowerShell, Python, Shell Scripting

Cloud & Directory Services – Entra ID, Exchange Online

Database Technologies – SQL Server

System Administration & Operations – IT Processes, Information Security, Systems Implementations, Change Management, Software Upgrades, On-Call Support

Documentation & Auditing – Audit Preparation, Process Documentation, Environment Diagrams

PROJECTS

Active Directory User Lifecycle Automation

- Developed a comprehensive PowerShell automation solution to manage the full lifecycle of user accounts within **Active Directory**, from creation to deactivation, improving efficiency by **30%**.
- Integrated the automation scripts with HR systems to enable near real-time user provisioning and deprovisioning, reducing onboarding time for new hires by an average of **2 days**.
- Designed and implemented standardized role-based access control (RBAC) models within AD, ensuring compliance with security policies and simplifying entitlement management.

IAM Tool Enhancement & Documentation

- Enhanced the functionality of the **Saviynt** platform by configuring custom workflows for access requests and approvals, streamlining the process for over **200 employees**.
- Created detailed technical documentation and process flows for the deployment and maintenance of IAM tools, serving as a reference for the IT support team.
- Assisted in the migration of user data and configurations from legacy systems to **OneIdentity Active Roles Server**, ensuring data integrity and minimal downtime.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
