PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided comprehensive **Windows desktop support** and **hardware/software troubleshooting** for an enterprise user base, resolving an average of 15 tickets daily.
- Delivered executive-level support with a focus on a **professional, high-quality "white glove" experience**, ensuring timely resolution of critical issues.
- Managed user accounts, group policies, and permissions within **Active Directory** and **Azure AD** environments to maintain security and access controls.
- Administered and supported the **Microsoft 365** suite, including Outlook, Teams, SharePoint, and OneDrive, assisting end-users with configuration and troubleshooting.
- Automated routine IT tasks using **Python scripting**, reducing manual effort for user onboarding and software deployment by approximately **30%**.
- Collaborated with cross-functional teams to resolve complex technical issues, ensuring minimal disruption to business operations and maintaining **strict SLAs**.
- Configured and maintained desktop hardware and software deployments using **imaging tools** and remote management solutions.

SKILLS

Operating Systems – Windows Desktop Support, Linux

Directory Services – Active Directory, Azure AD

Productivity Suites – Microsoft 365, Outlook, Teams, SharePoint, OneDrive

Troubleshooting – Hardware Troubleshooting, Software Troubleshooting, End-User Support, Executive-Level Support

Scripting & Automation – Python

Cloud Platforms – AWS

PROJECTS

Enterprise Desktop & M365 Support Enhancement (HCL Technologies)

- Streamlined the onboarding process for new hires by developing **Python scripts** to automate account creation and software provisioning across **Active Directory** and **Microsoft 365**, reducing setup time by **20%**.
- Created detailed documentation and runbooks for common desktop support issues, improving first-call resolution rates by **15%** for the Level 1 support team.
- Supported a user base of over 1,000 employees, addressing technical issues related to Windows operating systems, core business applications, and networked hardware.

IT Support Automation and Tooling (HCL Technologies)

- Developed a **Python**-based tool to query and report on user permissions within **Active Directory**, aiding in periodic compliance audits.
- Assisted in the configuration and deployment of new workstation hardware, ensuring all necessary software and security agents were installed and functional.
- Provided remote and on-site technical assistance to end-users, resolving issues related to connectivity, application errors, and hardware malfunctions.
