HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **.NET Core** and **C#** applications, ensuring high availability for critical client systems.
- Implemented robust error handling and logging mechanisms across **.NET Framework** applications, reducing critical incident resolution time by approximately **18%**.
- Designed and deployed RESTful APIs using **C#** and **.NET Core** to facilitate seamless data exchange between enterprise systems.
- Participated in code reviews and sprint planning sessions, contributing to the successful delivery of features within agile development cycles.
- Managed and optimized **SQL Server** databases, performing schema changes and writing complex queries to support application functionality.
- Automated routine tasks and data processing workflows using **Python** scripts, improving team efficiency by an estimated **15%**.
- Containerized applications using **Docker** and deployed them to **Azure** environments, enhancing deployment consistency and speed.

SKILLS

Backend Development – .NET Core, C#, .NET Framework, Java, Spring Boot, Python, Flask, FastAPI

Frontend Development – React, Angular, JavaScript, TypeScript

Databases – SQL Server, PostgreSQL, MySQL, Oracle

Cloud & DevOps – Azure, Azure DevOps, Docker, AWS, Jenkins, Git

Data & Analytics – Azure Databricks, Python, pandas, R, Power BI, Tableau, DAX

Enterprise Systems – Dynamics 365, Office 365, ERP Integration

PROJECTS

Enterprise Application Modernization with .NET Core

- Migrated legacy **.NET Framework** services to a modern **.NET Core** architecture, improving application performance and maintainability.
- Developed new RESTful APIs in **C#** to support enhanced client reporting features, processing approximately **500** requests per minute.
- Implemented comprehensive unit and integration tests using **xUnit**, achieving over **85%** code coverage for critical application modules.

Azure-Based Data Processing Pipeline

- Built an automated data ingestion and transformation pipeline using **Azure Databricks** and **Python**, processing over **10,000** records daily.
- Integrated the pipeline with **SQL Server** to store processed data, enabling efficient querying for downstream analytical dashboards.
- Configured **Azure DevOps** pipelines for continuous integration and deployment of the data processing solution.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
