PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained Java Spring Boot REST APIs for internal services, handling approximately 500 requests per minute during peak hours.
- Implemented Hibernate entities and JpaRepository interfaces for data persistence across PostgreSQL and Oracle databases, ensuring data integrity for critical financial operations.
- Designed and coded reusable Java components using object-oriented principles and JUnit for unit testing, contributing to a 15% reduction in critical bugs reported post-release.
- Analyzed and resolved complex data discrepancies across multiple internal and external financial data sources, ensuring accuracy for portfolio reporting.
- Produced, reviewed, and delivered private debt portfolio reporting and analytics for institutional clients and internal stakeholders, meeting all assigned deadlines.
- Supported the enhancement of portfolio analytics and reporting methodologies, contributing to the development of new reporting frameworks.
- Containerized Java Spring Boot applications using Docker and deployed them to AWS EC2 instances, improving deployment consistency and reducing setup time by 40%.

SKILLS

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, Hibernate, JPA, pandas, NumPy, scikit-learn

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

BI & Visualization – Power BI, Tableau, DAX, Power Query

Financial Markets – Private Debt, Portfolio Analytics, Performance Reporting, Data Quality Management, Investment Structures, Cash Flows

PROJECTS

Java Backend for Financial Reporting

- Developed a Java Spring Boot application to process and aggregate financial transaction data from disparate sources, supporting an enterprise-wide reporting system.
- Integrated Hibernate with PostgreSQL to manage a schema designed for storing and querying detailed investment positions and historical cash flows, enhancing data retrieval performance by 20%.
- Implemented RESTful APIs to serve aggregated financial data to downstream reporting tools, ensuring data consistency and availability for operational teams.

MSc Data Analytics Capstone: Portfolio Performance Dashboard

- Designed and built an interactive Power BI dashboard to visualize key performance indicators for private debt portfolios, including exposure, cash flows, and realized gains.
- Developed complex DAX measures and Power Query scripts to extract, transform, and load data from multiple sources, ensuring data accuracy and completeness for analysis.
- Presented the final dashboard and analytical findings to university faculty and a simulated investment committee, demonstrating actionable insights derived from portfolio data.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
