HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Wrangled large, complex datasets using **SQL** to deliver actionable insights for the Seller Systems business area, becoming the go-to data expert.
- Developed and maintained **executive-facing weekly and quarterly reporting**, creating narratives to influence senior Product, Engineering, and Sales leadership.
- Partnered with product and engineering leaders within Seller Systems to drive product strategy, planning, and goal-setting, ensuring data-driven decision making.
- Designed and optimized operational reviews and rhythm-of-the-business processes, guiding planning and goal-setting with a consistent **ROI lens**.
- Conducted internal knowledge sharing sessions on **advanced SQL techniques** and data analysis best practices to strengthen the team's capabilities.
- Scoped and led mission-critical projects focused on strategic initiatives within the Internal Systems organization.
- Containerized Python-based data processing services using **Docker** and deployed them to an **AWS** environment, ensuring scalable and reliable execution.

SKILLS

Data Analysis & BI – SQL, Power BI, Tableau, DAX, Power Query, Data Warehousing, Business Intelligence, R, RStudio, Statistical Analysis, Exploratory Data Analysis, A/B Testing, Time-Series Analysis

Programming Languages – Python, Java, SQL, R

Backend Development – Java Spring Boot, REST APIs, Flask, FastAPI, Microservices

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux, Shell Scripting

Enterprise Systems – ERP Integration Support, Payments Operations Dashboard, Transaction Monitoring, Reconciliation Workflows, Change Management

Machine Learning – Scikit-learn, Pandas, NumPy, Machine Learning Fundamentals, Supervised/Unsupervised Learning, Evaluation Metrics

PROJECTS

Internal Systems Analytics Platform Development

- Engineered a Python-based data pipeline to ingest and transform operational data from various enterprise systems, feeding into a central data warehouse.
- Developed a suite of **Power BI dashboards** to monitor key performance indicators for internal operations, providing stakeholders with real-time insights into system health and performance.
- Applied **SQL** and data modeling techniques to structure data for efficient querying and reporting, supporting ad-hoc analysis requests from business analysts.

Customer Transaction Monitoring Dashboard

- Built a **Java Spring Boot** application to process and aggregate transaction data, enabling real-time monitoring for a financial-services client.
- Designed and implemented REST APIs for data retrieval, facilitating integration with downstream reporting tools and **transaction monitoring** workflows.
- Collaborated with cross-functional operations teams to gather requirements and ensure the dashboard met **regulatory and GDPR** awareness standards for production environments.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
