HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed **production support** for enterprise applications, responding to P1/P2 incidents and ensuring SLA adherence across distributed systems.
- Developed **Python scripts** for automating data ingestion and scheduled reporting tasks, processing approximately 50 GB of data daily.
- Performed **SQL query optimization** and data validation across PostgreSQL and Oracle databases for critical financial operations reporting.
- Contributed to **Java Spring Boot** application development, building and extending REST APIs for inter-service communication.
- Containerized applications using **Docker** and deployed them to **AWS EC2** instances, managing infrastructure through Jenkins CI/CD pipelines.
- Diagnosed and resolved **mechanical, electrical, and software interfacing problems** on production floor equipment, identifying root causes for hardware/software defects.
- Coordinated **preventative maintenance and calibration** schedules for manufacturing lines, ensuring equipment readiness and compliance with GMP standards.

SKILLS

Manufacturing & Engineering – Mechanical troubleshooting, Electrical troubleshooting, Electronic troubleshooting, Process troubleshooting, Hardware/software interfacing, System diagnosis, Preventative maintenance, Calibration, GMP standards, AutoCAD, Pneumatics, PLCs, Instrumentation, Hydraulics

Software & Systems – Linux, Shell scripting, Cron jobs, Python, Java, Spring Boot, REST APIs, SQL, PostgreSQL, MySQL, Oracle, AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Jira, Confluence

Data Analysis & BI – Data analysis, Trending reports, Power BI, Tableau, DAX, Power Query, Data modelling, Data warehousing, Statistical methods, Exploratory data analysis, A/B testing

Operations & Support – Production support, SLA management, Incident response, Change management, Root cause analysis, Technical improvements, Uptime metrics, Productivity analysis, Scrap reduction, Efficiency performance

Communication & Soft Skills – Cross-functional collaboration, Vendor management, Teamwork, Business understanding, PC skills, Communication skills, Self-starter, Analytical skills, Problem-solving skills, Multiple task handling

PROJECTS

Automated Equipment Monitoring System (HCL Technologies)

- Developed a **Python-based system** to collect real-time telemetry from production machinery, integrating with **AWS CloudWatch** for monitoring.
- Engineered **scheduled data pipelines** to aggregate equipment status and error logs, reducing manual data collation effort by approximately 15 hours per week.
- Implemented alert mechanisms using shell scripting and cron jobs to notify operations teams of critical equipment malfunctions, improving response times by 20%.

Manufacturing Process Data Analysis Dashboard

- Created interactive **Power BI dashboards** to visualize production line efficiency, scrap rates, and equipment uptime metrics based on historical data.
- Applied **DAX measures** and Power Query transformations to analyze trends and identify root causes for performance deviations, supporting data-driven improvement initiatives.
- Collaborated with manufacturing engineers to gather requirements and refine dashboard visualizations, ensuring clear presentation of operational performance to stakeholders.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
