PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Configured and deployed **Windows 10/11 desktops** and associated peripherals for over **200 corporate users**, maintaining accurate asset records in the IT asset management system.
- Resolved daily **desktop, application, and remote access issues** for corporate and trading floor users, achieving a **92% first-contact resolution rate** for Level 1 tickets.
- Managed a queue of over **50 daily requests** in **Jira Service Desk**, coordinating handoffs and status updates between Client Services, Corporate Support, and Trading Support teams.
- Automated routine **software packaging and deployment** tasks using **PowerShell scripting**, reducing manual effort by approximately **15 hours per month**.
- Contributed to **Group Policy Object (GPO) updates** and automation changes within a large-scale **Active Directory** environment, following rigorous change control procedures.
- Diagnosed and troubleshot issues with **Microsoft 365** applications and **Citrix** environments for end-users, ensuring minimal disruption to daily workflows.
- Assisted in the upgrade and deployment of **new laptop hardware** across the Dublin office, ensuring all devices met security and performance standards prior to user assignment.

SKILLS

Operating Systems – Windows 10, Windows 11, Linux

Directory Services – Active Directory, Group Policy

Scripting & Automation – PowerShell, Shell Scripting

Ticketing & ITAM – Jira Service Desk, IT Asset Management

Core Technologies – Microsoft 365, Citrix, SCCM, TCP/IP, DNS, VLANs

Hardware & Peripherals – Desktop hardware, Laptop hardware, Peripherals

PROJECTS

End User Desktop Imaging and Automation

- Developed a **PowerShell script** to automate the initial setup and software installation for new **Windows 11 desktops**, reducing deployment time per machine by **30 minutes**.
- Integrated the automation script with the existing **SCCM** deployment pipeline, enabling faster and more consistent image deployment to the corporate user base.
- Documented the imaging process and automation script, creating a guide for the Client Corporate Support team to streamline future desktop rollouts.

Active Directory User Management Automation

- Engineered a **PowerShell script** to automate the creation and configuration of new user accounts in **Active Directory** based on HR-provided data templates.
- Implemented error-handling and logging within the script to capture and report on any issues during account creation, improving the reliability of the onboarding process.
- Collaborated with the Client Services team to test and refine the script, ensuring it met their requirements for efficient user onboarding.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021
