HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed the end-to-end provisioning lifecycle for **physical and virtual servers**, networking hardware, and storage resources, coordinating global logistics.
- Served as a primary liaison between internal requestors, purchasing departments, and technical deployment teams to ensure accurate hardware and resource acquisition.
- Developed and maintained **Python scripts** to automate data extraction for reporting on **licensing, logistics, and request trends**, improving data availability for analysis.
- Defined and refined the **global provisioning process**, collaborating with internal application development teams to build and improve custom tooling.
- Coordinated urgent **break/fix operations** in datacenters by managing spare hardware inventory and requisitioning necessary components for site support.
- Facilitated **change management** processes for system configuration updates and new environment deployments, ensuring adherence to established standards.
- Contributed to the development of **in-house tools** that define provisioning workflows, focusing on optimizing hardware and resource request fulfillment.

SKILLS

IT Administration – Server Hardware, Networking Hardware, Storage, Inventory Control, Change Management, Request Management

Scripting & Automation – Python, Shell Scripting

Cloud & Virtualization – Virtual Servers, AWS (EC2, S3, Lambda, CloudWatch)

Databases & Data Management – SQL, PostgreSQL, MySQL, Oracle

Development & CI/CD – Java Spring Boot, REST APIs, Docker, Git, Jenkins

Operations & Monitoring – Splunk, Dynatrace, Linux, Cron Jobs

PROJECTS

IT Asset Management and Provisioning Tool

- Developed a **Python-based tool** to track and manage IT assets, including servers, networking gear, and storage, across multiple global sites.
- Integrated the tool with **PostgreSQL** to maintain a central inventory database, enabling efficient querying for hardware availability and lifecycle status.
- Implemented automated reporting features that provided key metrics on **hardware utilization** and upcoming refresh cycles to support procurement planning.

Global Logistics and Deployment Coordination System

- Designed and implemented a system to coordinate the **global logistics** of hardware deployment, tracking shipments and delivery schedules for new datacenter builds.
- Built a **REST API** using Flask to allow technical deployment teams to update deployment statuses and flag any logistical issues in real-time.
- Authored technical documentation and runbooks for the provisioning process, standardizing workflows for **hardware acquisition and installation**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
