HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and deployed **Java Spring Boot** microservices for core business logic, integrating with PostgreSQL databases and exposing RESTful APIs for internal consumption.
- Engineered **Hibernate** queries and managed JPA entity mappings to optimize data persistence and retrieval for enterprise applications, reducing query execution times by an average of **18%**.
- Designed and implemented robust object-oriented solutions using **Java EE** principles, incorporating JUnit tests and Mockito for comprehensive unit coverage on critical backend modules.
- Authored comprehensive technical documentation and knowledge base articles for complex system integrations, improving onboarding efficiency for new team members by approximately **20%**.
- Contributed to sprint planning and technical estimation sessions, actively participating in Agile ceremonies and providing accurate effort assessments for new feature development.
- Collaborated with senior engineers on code reviews, ensuring adherence to coding standards and identifying potential performance bottlenecks in application logic.
- Containerized backend services using **Docker** and managed deployment configurations on **AWS EC2** instances, facilitating consistent environments across development and staging.

SKILLS

Languages – Java, Python, SQL, R

Frameworks/Libraries – Spring Boot, Hibernate, JPA, Spring Cloud, scikit-learn, pandas, NumPy, Flask, FastAPI

Databases – PostgreSQL, MySQL, Oracle

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Tools/Platforms – Jira, Confluence, Splunk, Dynatrace, Linux

Analytics/BI – Power BI, Tableau, DAX, Power Query, Data Modelling

Concepts – REST APIs, Microservices, Object-Oriented Programming, Agile Methodologies, Data Warehousing, Machine Learning Fundamentals

PROJECTS

Enterprise Java Application Modernisation (HCL Technologies)

- Re-architected a monolithic Java application into a microservices-based system using **Spring Boot**, improving system scalability and maintainability.
- Implemented data access layers with **Hibernate** and **PostgreSQL**, optimizing critical transaction processing workflows and reducing peak load latency by **22%**.
- Developed comprehensive JUnit test suites and integrated them into the **Jenkins CI/CD pipeline** for automated builds and deployments.

Real-Time Transaction Analytics Pipeline (HCL Technologies)

- Built a Python-based data pipeline to ingest and transform high-volume transaction data from multiple sources into a data warehouse schema.
- Developed analytical models using **pandas** and **scikit-learn** to identify anomalous transaction patterns, achieving an accuracy of approximately **88%** on a historical dataset.
- Created interactive **Power BI** dashboards to visualize key performance indicators and operational metrics for business stakeholders, enabling faster decision-making.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
