PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Collected and analysed transport and logistics data, including routes, delivery times, and volume, to identify inefficiencies and cost-saving opportunities for a national food distribution network.
- Developed and maintained **performance dashboards** and KPIs for transport operations, enabling real-time monitoring of fleet utilisation and delivery punctuality.
- Produced regular and ad-hoc performance reports on transport operations, highlighting key trends and providing actionable insights to the transport manager and operational teams.
- Evaluated **route performance** and recommended adjustments to scheduling and planning processes, contributing to optimised fleet utilisation and asset management.
- Assessed service reliability and punctuality performance across a fleet of over 50 vehicles, identifying areas for improvement in delivery time adherence.
- Supported compliance monitoring for transport regulations and standards, ensuring adherence to national logistics requirements and maintaining accurate reporting.
- Containerised and deployed data analysis microservices using **Docker** and managed their execution on **AWS EC2** instances, ensuring efficient resource allocation and scalability.

SKILLS

Data Analysis & Reporting – Data Collection, Data Cleaning, Performance Monitoring, KPI Development, Trend Analysis, Cost Analysis, Route Optimisation, Fleet Optimisation, Asset Utilisation, Service Reliability, Punctuality Assessment, Scheduling Improvements, Planning Processes, Financial Analysis, Report Generation.

Tools & Technologies – Advanced Excel, Power BI, Tableau, SQL, Python (pandas, NumPy), R, Splunk, Dynatrace, Jira, Confluence, Git, Jenkins, AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux.

Domain Knowledge – Transport, Logistics, Supply Chain, Regulatory Compliance, Business Intelligence, Data Modelling, Data Warehousing, Change Management.

Analytical Skills – Problem-Solving, Critical Thinking, Attention to Detail, Interpreting Large Datasets, Presenting Clear Insights, Continuous Improvement Mindset.

Communication & Collaboration – Clear Written and Verbal Communication, Ability to Work Independently, Stakeholder Communication, Building Effective Relationships.

PROJECTS

Logistics Network Optimisation Platform

- Developed a **Python-based analytics pipeline** to process and integrate diverse logistics datasets, including route data, delivery times, and shipment volumes from multiple sources.
- Built interactive **Power BI dashboards** that visualised key performance indicators such as on-time delivery rates, fuel consumption per route, and fleet utilisation, enabling operational teams to identify bottlenecks.
- Implemented data validation checks and applied **SQL queries** against a PostgreSQL database to ensure data integrity for critical logistics planning and reporting.

Transport Operations Efficiency Dashboard (HCL Technologies)

- Engineered a comprehensive **data dashboard** using **Power BI** and DAX measures to track and analyse transport operations for a financial services client, focusing on delivery schedules and resource allocation.
- Automated data extraction and transformation processes using **Python scripts** and pandas, reducing manual reporting effort by approximately 40% and improving report generation timeliness.
- Collaborated with operations teams to define requirements and refine dashboard visualisations, ensuring the insights provided directly supported **operational decision-making** and efficiency improvements.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
