PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and executed comprehensive test plans for new software features, identifying and documenting defects with precise detail for a team of 6 developers.
- Developed and maintained automated test scripts using **Python** and **Selenium** to enhance regression testing efficiency, reducing manual testing effort by **40%**.
- Collaborated with cross-functional teams, including developers and business analysts, to understand requirements and ensure alignment on quality assurance objectives.
- Performed API testing using **Postman** and **SQL** queries to validate data integrity and service interactions across multiple application modules.
- Participated in Agile ceremonies, including sprint planning and daily stand-ups, contributing to iterative development cycles and timely delivery of high-quality software.
- Investigated and triaged reported software defects, providing clear and concise information to development teams for rapid resolution.
- Managed and executed test cases within **Jira**, meticulously tracking progress and reporting on test coverage and defect status to project managers.

SKILLS

Testing Principles – Test Cases, Defect Management, Software Development Lifecycle, Quality Assurance, Test Automation

Programming – Java, Python, JavaScript

Tools & Practices – Git, Jira, Azure DevOps, Jenkins, Agile Delivery

Databases & APIs – SQL, PostgreSQL, MySQL, Oracle, REST APIs

Cloud & Automation – AWS, Docker, Selenium, Postman

Data Analytics – Power BI, Tableau, DAX, Power Query

PROJECTS

Automated Testing Framework for Financial Services Dashboard

- Developed a **Python**-based automated testing framework using **Selenium** to cover critical user workflows for a financial services operations dashboard.
- Integrated the framework into the **Jenkins** CI/CD pipeline, enabling automated regression testing on every code commit and reducing defect leakage by **30%**.
- Collaborated with the operations team to define key test scenarios, ensuring comprehensive coverage of transaction monitoring and alerting functionalities.

API Integration Testing for Enterprise Resource Planning Systems

- Designed and executed test cases for REST APIs connecting ERP modules with other enterprise systems, utilizing **Postman** for request simulation and validation.
- Wrote **SQL** scripts to verify data consistency and integrity across interconnected databases (**PostgreSQL**, **MySQL**) following integration test execution.
- Documented test results and defect reports, facilitating prompt resolution of integration issues for a key banking client's operational platforms.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
