PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Engaged with financial services stakeholders to elicit and document business and functional requirements for banking and lending capabilities on the **Salesforce** and **nCino** platforms.
- Facilitated requirement workshops and backlog refinement meetings, translating business needs into well-defined **JIRA Epics, Features, and User Stories** with detailed acceptance criteria.
- Performed impact analysis, process mapping, and gap analysis to identify areas for business process optimization within loan origination workflows.
- Collaborated closely with **Salesforce** and **nCino** development teams to clarify requirements and support solution design discussions throughout the delivery lifecycle.
- Coordinated User Acceptance Testing (UAT), providing support to business users and assisting with defect triage and resolution to ensure successful deployment.
- Managed and maintained the product backlog in partnership with Product Owners, ensuring alignment with project governance and SDLC requirements for multiple initiatives.
- Supported production incident triage and root cause discussions, contributing to the resolution of enhancement requests and operational challenges.

SKILLS

Platforms – Salesforce, nCino, JIRA, Confluence, Microsoft Office Suite, Excel, PowerPoint, Visio

Methodologies – Agile, Scrum, Software Development Life Cycle (SDLC), Change Management

Analysis – Business Analysis, Functional Requirements, Technical Requirements, Impact Analysis, Process Mapping, Gap Analysis, Business Process Optimization, User Story Creation, Acceptance Criteria

Financial Services – Banking, Lending Capabilities, Loan Origination, Customer Onboarding, Underwriting, Loan Servicing, Lending Operations

Stakeholder Management – Business Stakeholders, Technology Teams, Developers, Product Owners, Vendors, Third-Party Consultants, Cross-functional Teams

Communication – Written Communication, Verbal Communication, Facilitation, Technical and Non-Technical Audiences

Core Technologies – SQL, REST APIs, Java, Python, Spring Boot, AWS, Docker, Linux, Git, Jenkins, PostgreSQL, MySQL, Oracle, Splunk, Dynatrace, Power BI, Tableau, R, pandas, NumPy, scikit-learn

PROJECTS

Salesforce & nCino Platform Requirements Analysis (HCL Technologies)

- Documented detailed business and functional requirements for new features within a **Salesforce**-based loan origination system, collaborating directly with business stakeholders and product owners.
- Developed comprehensive user stories and acceptance criteria in **JIRA** for development teams, ensuring clear understanding of functional specifications for lending capabilities.
- Facilitated UAT sessions and gathered feedback from business users, translating findings into actionable defect resolutions and enhancement requests for the platform.

Financial Services Operations Dashboard Enhancement (HCL Technologies)

- Gathered requirements from operations teams to enhance a **payments operations dashboard**, focusing on improving transaction monitoring and alerting for failed payment messages.
- Designed and documented functional specifications for new reporting features, utilizing **SQL** to define data extraction logic from underlying financial transaction databases.
- Supported the implementation of dashboard enhancements by coordinating with development teams and performing user acceptance testing for operational improvements.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
