PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Built and maintained **Adobe Analytics** dashboards and reports for marketing campaign performance, audience engagement, and channel optimization, supporting data-driven decision-making for over 15 business units.
- Developed and automated **SQL queries** for extracting and validating large marketing datasets, ensuring data accuracy for lead management and campaign reporting processes with minimal supervision.
- Collaborated with marketing, Salesforce, and data platform teams to define and implement reliable data flows for MQL (Marketing Qualified Lead) generation and tracking.
- Created and updated comprehensive process documentation, reporting methodologies, and business rules to ensure consistency and accuracy across recurring reporting cycles.
- Analyzed digital engagement signals from various marketing channels, generating actionable insights for personalization and optimizing campaign strategies across email, webinar, and lead-generation programs.
- Identified and implemented automation opportunities for manual reporting efforts, improving operational efficiency by approximately **20%** through Python scripting and workflow optimization.
- Contributed to the enhancement of integrated channel dashboards by supporting benchmark reporting and providing ad hoc analysis for campaign performance trends.

SKILLS

Analytics & BI Platforms – Adobe Analytics, Adobe Experience Platform (AEP), Power BI, Tableau, DAX, Power Query

Data Analysis & Reporting – Marketing Analytics, Campaign Reporting, Lead Management, Audience Engagement, Channel Optimization, SQL, ETL

Marketing Automation & CRM – Salesforce, Marketo

Programming & Scripting – Python, SQL

Data Management & Stewardship – Data Warehousing, Data Modelling, Business Rules, Process Documentation

Methodologies & Concepts – Agile, Business Intelligence, Statistical Analysis, A/B Testing

PROJECTS

Marketing Campaign Performance Dashboard

- Designed and implemented a comprehensive **Power BI** dashboard integrating data from Adobe Analytics and Salesforce to provide end-to-end visibility into marketing campaign performance.
- Developed complex **DAX** measures and Power Query transformations to aggregate and analyze customer engagement metrics across digital channels, reducing manual data manipulation by **~30%**.
- Collaborated with marketing stakeholders to gather requirements and iterate on dashboard designs, ensuring alignment with strategic growth objectives and operational efficiency.

Lead Generation Data Flow Automation

- Automated the extraction, validation, and loading of lead data from marketing platforms into a central data warehouse using **Python** scripts and **SQL**.
- Implemented data quality checks and process documentation for the lead management workflow, reducing data discrepancies by **15%** and ensuring timely MQL reporting.
- Supported ad hoc reporting requests from the sales and marketing teams, providing cleansed and structured data for analysis and decision-making.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
