PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Addressed front-line technical and billing queries from customers via email and phone, maintaining a **92% first-contact resolution rate**.
- Performed outbound calls to existing customers for product renewals and service updates, contributing to a **15% uplift in customer retention** for the assigned portfolio.
- Processed **.IE domain registration applications** and managed associated customer documentation, ensuring timely and accurate submissions to the registry.
- Provided overflow support for inbound sales queries, handling approximately **20-30 calls and emails daily** to maintain service levels.
- Collaborated with the .IE Registry team to identify and upsell new domain opportunities and increase product attachment rates by **10%**.
- Executed system configuration changes and coordinated User Acceptance Testing (UAT) for enterprise business systems, ensuring seamless integrations.
- Monitored and performed production support for enterprise applications using **Splunk and Dynatrace**, managing incident response and SLA adherence.

SKILLS

Customer Support – Technical Support, Billing Queries, Email Support, Phone Support, Upselling, Customer Service, Troubleshooting, Diagnostic Skills

IT & Internet Technologies – TCP/IP, DNS, cPanel, Website Building, Web Design, Domain Registration

Software Development – Java, Spring Boot, REST APIs, Python Scripting, ETL, SQL, PostgreSQL, MySQL, Oracle

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux

Data & Analytics – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing, R, pandas, scikit-learn

Project Management & Collaboration – Agile/Scrum, Jira, Confluence, Change Management, UAT Coordination

PROJECTS

Customer Onboarding and Support Automation

- Developed a Python-based script to automate the processing of new **.IE domain registrations**, reducing manual entry time by **40%** and improving data accuracy.
- Built an interactive **Power BI dashboard** to visualize customer support ticket trends, common query types, and resolution times, enabling proactive identification of recurring issues.
- Created comprehensive **technical documentation and user guides** for common customer issues, decreasing inbound support requests for basic troubleshooting by approximately **18%**.

Enterprise System Integration and Monitoring

- Engineered Java Spring Boot REST APIs to facilitate cross-system integrations between an ERP module and a financial-services operations dashboard, handling over **500 requests per minute**.
- Implemented automated data validation checks using **SQL and Python scripting** for reconciliation workflows, identifying and flagging discrepancies in transaction data streams with **98% accuracy**.
- Configured **Splunk alerts and dashboards** for production monitoring of enterprise applications, providing real-time insights into system health and performance across multiple services.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
