HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Implemented and maintained **IT security policies**, procedures, and standards across enterprise systems, aligning with **organizational governance** frameworks.
- Monitored **security systems** including **Microsoft Azure** and **Microsoft 365 environments**, identifying vulnerabilities and supporting the management of potential threats to protect infrastructure.
- Managed and reviewed **user access**, permissions, and **identity security** for a user base of over 500 employees, ensuring adherence to access control policies.
- Conducted **IT security risk assessments** for new system deployments, documenting findings and recommending appropriate controls to mitigate identified risks.
- Supported **IT governance**, regulatory compliance, and internal audit requirements by maintaining accurate security documentation and compliance records.
- Assisted with **security incident management**, including investigation and remediation efforts for detected security events, reducing average response time by **15%**.
- Collaborated with internal teams and external service providers to improve **security practices** and awareness through training sessions and documentation updates.

SKILLS

Cloud Security – Microsoft Azure, Microsoft 365, Cloud Systems

Cybersecurity Principles – Threats, Security Controls, Vulnerability Management, Incident Response

IT Governance & Compliance – Risk Management, Regulatory Compliance, Security Policies, Procedures, Standards, Internal Audit

Identity & Access Management – User Access Management, Permissions Review, Identity Security

Infrastructure & Operations – IT Infrastructure Security, System Monitoring, Business Continuity, Disaster Recovery Planning

Tools & Technologies – Splunk, Dynatrace, Jira, Confluence, Linux Shell Scripting

PROJECTS

Cloud Security Enhancement for Enterprise Applications

- Implemented enhanced security controls within **Microsoft Azure** environments, focusing on network security groups and access policies for critical applications.
- Developed and documented new **security procedures** for cloud resource provisioning and de-provisioning, reducing unauthorized access incidents by **20%**.
- Collaborated with development teams to integrate security best practices into the CI/CD pipeline for cloud-deployed services.

Identity and Access Management Framework Development

- Designed and proposed an updated **identity and access management** framework for enterprise systems, incorporating principles of least privilege and role-based access control.
- Conducted a comprehensive review of existing user access across core business systems, identifying and rectifying over **150** instances of excessive permissions.
- Created detailed documentation for the new IAM policies and procedures, facilitating smoother onboarding for new IT security team members.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
