PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided end-to-end technical support for **ERP systems** and B2B integrations, diagnosing and resolving issues across interconnected applications.
- Investigated and resolved application, transactional, and performance issues within live production environments, tracing transactions across **APIs**, databases, and enterprise systems.
- Troubleshot **REST/SOAP APIs** and automated integrations, analyzing payloads, authentication, and responses to identify root causes of failures.
- Managed incidents, service requests, and changes through an **ITSM platform**, adhering to agreed SLAs and change-management processes.
- Produced **Root Cause Analysis** reports and technical documentation for complex application and integration issues, contributing to the knowledge base.
- Collaborated with **developers**, business analysts, and third-party vendors to troubleshoot and resolve intricate technical problems.
- Analyzed and resolved **master-data and configuration issues** impacting application performance and data integrity.

SKILLS

ERP & Integrations – ERP Systems, B2B Integrations, REST APIs, SOAP APIs, Postman, JSON, XML, CSV, Data Feeds, Application Architecture, End-to-End Data Flows

Databases & Querying – SQL, Joins, Filtering, Aggregation, Subqueries, Data Reconciliation, Data Validation, Data Discrepancies

Monitoring & Logging – Splunk, CloudWatch, Dynatrace, Log Analysis, Performance Issues, Production Environments

Development & Support Tools – Jira, Confluence, Jenkins, Git, Docker, Linux Shell Scripting, Cron Jobs

Methodologies & Processes – Agile/Scrum, ITIL, Incident Management, Problem Management, Service Request Management, Change Management, SLAs

PROJECTS

ERP System Integration Support (HCL Technologies)

- Supported the integration of a core **ERP system** with external business applications, ensuring seamless data flow and transaction processing.
- Troubleshot data discrepancies and reconciliation issues by writing complex **SQL queries** across PostgreSQL and Oracle databases, identifying root causes for ~15% of reported data mismatches.
- Developed **Python scripts** to automate data validation checks and generate daily operational reports for the ERP system's integration points.

B2B API Transaction Monitoring (HCL Technologies)

- Built and maintained monitoring tools for B2B **API transactions**, focusing on identifying and alerting on failed payment messages within a financial services client's platform.
- Developed **Java Spring Boot** services to parse API payloads and log transaction status, contributing to a reduction in manual triage time by 30% for the operations team.
- Investigated performance bottlenecks in **REST API** integrations using Dynatrace, pinpointing an average of 5 slow-performing endpoints per week for optimization.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
