HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Executed statistical analyses and inter-rater reliability metrics on **~1.5M annotation records**, identifying patterns in evaluator performance and dataset integrity for a global evaluation programme.
- Designed and developed **operational dashboards** in **Power BI** and **Tableau** to track key quality indicators, enabling data-driven decisions for a team of 15 evaluators.
- Performed data quality control on large, complex datasets using **SQL** and **Python**, identifying inconsistencies and root causes that impacted dataset integrity by approximately **12%**.
- Curated, validated, and maintained **golden datasets** to defined specifications, documenting data integrity findings and contributing to a **30%** reduction in downstream data quality issues.
- Analyzed annotation and human evaluation data, including **annotator feedback**, to identify operational improvement opportunities and assess vendor quality, leading to a **15%** improvement in external rating accuracy.
- Collaborated cross-functionally with engineering and evaluation teams to investigate data anomalies, providing documented findings and contributing to **process improvements** for data quality standards.
- Developed and maintained process and reporting documentation, including QA methodologies and sampling frameworks, ensuring evaluation quality processes remained current and accessible to a distributed team.

SKILLS

Data Analysis & Statistics – Statistical Analysis, Inter-Rater Reliability, Hypothesis Testing, A/B Testing, Time-Series Analysis, Exploratory Data Analysis

Data Visualization & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, KPI Tracking, Dashboard Development

Programming & Scripting – Python, SQL, pandas, NumPy, R, RStudio

Data Quality & Management – Golden Datasets, Data Validation, Data Curation, Data Quality Control, Data Integrity

Tools & Methodologies – Jira, Confluence, Agile Methodologies, QA Methodologies, CloudWatch, Splunk

PROJECTS

Globalisation Evaluation Data Analysis Dashboard

- Developed a comprehensive **Power BI dashboard** to visualize trends in globalisation evaluation data, including vendor performance and dataset integrity metrics for over **2 million** records.
- Wrote complex **SQL queries** and used **Python** with pandas to extract, transform, and load data from multiple sources for analysis and reporting.
- Collaborated with stakeholders to define key performance indicators (KPIs) and present findings, facilitating operational decision-making for the evaluation programme.

Annotation Quality Improvement Initiative

- Performed root cause analysis on annotation errors using **statistical methods** and **Python scripting**, identifying patterns that led to a **18%** improvement in annotator accuracy.
- Curated and validated a **golden dataset** of 50,000 annotated items, establishing a benchmark for quality control and training new evaluators.
- Documented data quality findings and recommended process adjustments, contributing to a more consistent and reliable evaluation framework.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
