PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Imported, cleaned, and transformed data from diverse logistics systems, applying **statistical techniques** to identify trends and assess data quality for decision-making.
- Developed and maintained **dashboards** for interpreting transport event/milestone exceptions, categorizing and tracking exceptions to support continuous improvement.
- Designed and built **supplier engagement dashboards** featuring key performance indicators (KPIs) to measure and track supplier performance over time.
- Analysed existing Control Tower process inefficiencies, proposing and implementing improved business solutions to streamline operations and reduce errors.
- Validated data for new Control Tower solution deployments, ensuring seamless go-live by minimizing process and data errors.
- Liaised across functions to navigate multi-layered, multi-system data structures, providing a fact-based point of view with recommendations derived from analysis.
- Managed change control processes for system configuration updates and coordinated User Acceptance Testing (UAT) for enterprise business systems.

SKILLS

Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Statistical Analysis, A/B Testing, Time-Series Analysis, Business Intelligence

Programming & Scripting – Python, SQL, R, Java, Spring Boot, REST APIs, Flask, FastAPI

Data Management & Warehousing – SQL (PostgreSQL, MySQL, Oracle), ETL, Data Warehousing

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Shell Scripting

Methodologies & Tools – Agile, Scrum, Jira, Confluence, Jenkins, Git, SAP, SAP BW, Business Process Engineering

Domain Specific – Logistics, Supply Chain, Transport Operations, Control Tower, Payments Operations Dashboard, Transaction Monitoring, Reconciliation Workflows

PROJECTS

Logistics Control Tower Analytics Dashboard

- Designed and implemented a **Power BI dashboard** to monitor global transport operations, integrating data from SAP BW and various logistics platforms.
- Developed **DAX measures** and Power Query transformations to clean and model data, enabling real-time analysis of KPIs such as on-time delivery rates and carrier performance.
- Collaborated with global operations teams to gather requirements and validate dashboard insights, directly supporting continuous improvement initiatives in transport efficiency.

Enterprise Systems Data Integration & Reporting

- Automated data extraction and transformation processes using **Python scripts** and SQL queries across PostgreSQL and Oracle databases for ERP system integration.
- Built scheduled reports and ad-hoc data validation scripts to support change management activities and post-go-live system support for enterprise business systems.
- Developed REST APIs using **Java Spring Boot** to facilitate data exchange between disparate enterprise applications, ensuring data consistency.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
