PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Monitored and maintained accurate records of consignment inventory across approximately 50+ customer locations, supporting tracking of stock movements and customer consumption.
- Supported the processing of stock count data and reconciliation of consignment inventory through **ConsignPro** and **SAP**, escalating complex discrepancies for timely resolution.
- Investigated routine inventory discrepancies, collaborating with Sales and Customer Service teams to ensure accurate stock levels and minimize financial risk.
- Processed inventory transactions and corrections in **SAP**, including stock write-offs and transfers, adhering to approved procedures and month-end timelines.
- Prepared and distributed regular inventory-related reports, including daily, weekly, and monthly summaries of stock levels, discrepancies, and outstanding returns.
- Analyzed basic inventory trends and usage patterns, identifying recurring discrepancies and escalating significant findings to management for process improvement.
- Coordinated the return of expired or unwanted consignment stock, following up on outstanding documentation and ensuring compliance with established approval processes.

SKILLS

Inventory Management – Consignment Inventory, Stock Counts, Inventory Reconciliation, Stock Movements, Replenishment, Expired Inventory, Returns Management

ERP & Systems – SAP, ConsignPro, CRM

Data Analysis & Reporting – Reporting, Data Analysis, Trend Analysis, Inventory KPIs, Excel

Process & Compliance – Process Improvement, Compliance, Audit Requirements, Quality Standards, ISO Requirements

Core Competencies – Accuracy, Attention to Detail, Communication Skills, Service Orientation, Time Management, Organizational Skills, Problem-Solving, Independent Work

PROJECTS

Consignment Inventory Optimization Project

- Developed Python scripts to automate the aggregation and initial validation of stock count data from multiple customer input files, reducing manual processing time by approximately 30%.
- Designed and implemented a set of standardized reconciliation templates within **Excel** to streamline the process of identifying and documenting inventory discrepancies reported by field teams.
- Collaborated with operations teams to define key data points for inventory analysis, contributing to the preparation of reports that highlighted trends in product usage and potential overstock situations.

SAP Inventory Transaction Automation (HCL Technologies)

- Automated routine inventory adjustment transactions in **SAP** using Python scripting and basic **SQL** queries to extract and format data, reducing manual data entry errors by an estimated 15%.
- Contributed to the development of runbooks and documentation for inventory transaction processes, supporting the change-control management for system configuration updates.
- Assisted in cross-system data flow validation between **PostgreSQL** and **SAP** for inventory-related data, ensuring consistency across interconnected systems.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
