PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed consignment inventory levels across **customer locations**, ensuring product availability and minimizing excess stock by approximately **15%**.
- Supported the processing and reconciliation of **stock count data** and **consignment inventory** using **SAP** and ConsignPro, escalating complex discrepancies to management.
- Investigated routine inventory discrepancies and collaborated with **Sales Teams**, **Customer Service**, and customer contacts to facilitate timely resolution.
- Performed inventory transactions in **SAP**, including stock write-offs, transfers, and adjustments, adhering to approved procedures and month-end close timelines.
- Coordinated the return of expired, damaged, or unwanted consignment stock, tracking outstanding returns and ensuring proper documentation.
- Prepared and distributed regular **inventory-related reports**, including daily, weekly, and monthly analyses of inventory levels, discrepancies, and outstanding counts.
- Monitored consignment inventory count activities against established plans, following up on overdue counts and ensuring data accuracy for **invoicing** and **revenue recognition**.

SKILLS

Inventory Management – Consignment Stock, Stock Counts, Replenishment, Par Levels, Write-offs, Stock Transfers

ERP Systems – SAP, ConsignPro

Data Analysis & Reporting – Inventory Reports, Trend Analysis, Discrepancy Analysis, KPI Reporting, Data Accuracy

Operations – Customer Service, Supply Chain, Finance Teams, Sales Teams, Compliance, Process Improvement

Tools – Microsoft Office Suite, Excel (Advanced)

Languages – English (Fluent), German (Advantage)

PROJECTS

Consignment Inventory Optimization for Medical Devices

- Developed automated scripts to reconcile **consignment inventory** data from customer sites against internal records, reducing manual reconciliation effort by **40%**.
- Built a series of **Power BI dashboards** to visualize inventory levels, consumption patterns, and identify slow-moving or expired stock across key accounts.
- Collaborated with the sales team to refine **par levels** based on historical consumption data, leading to a sustained reduction in excess inventory by **12%**.

SAP Inventory Transaction Automation and Reporting

- Automated the processing of routine **SAP inventory transactions** (write-offs, transfers) using Python scripting, decreasing processing time by an average of **30 minutes** per batch.
- Designed and implemented standardized reporting templates in **Excel** for tracking key inventory metrics and facilitating month-end closing procedures for the finance team.
- Investigated and resolved data inconsistencies between the consignment management system and **SAP**, ensuring accurate financial reporting and compliance with quality standards.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021
