HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs supporting internal business systems, handling approximately **1,500 requests per minute** during peak hours.
- Wrote **Python scripts** to automate data extraction and transformation tasks for scheduled reporting, reducing manual effort by an estimated **10 hours per week** for the operations team.
- Managed production incidents for enterprise applications using **Splunk** and **Dynatrace**, contributing to the resolution of over **20 P1/P2 escalations** within SLA targets.
- Collaborated with cross-functional teams on a financial-services operations dashboard, gathering requirements for transaction monitoring and implementing updates via **Agile/Scrum ceremonies**.
- Designed and implemented **PostgreSQL database schema changes** and wrote complex SQL queries for data validation and ad-hoc reporting across integrated enterprise systems.
- Containerized Java applications using **Docker** for consistent deployment across development and testing environments, improving deployment success rates by **15%**.
- Participated in code reviews and facilitated technical discussions within the engineering team to ensure adherence to coding standards and best practices for **Java Spring Boot** applications.

SKILLS

Languages – Java, Python, SQL, R, JavaScript, HTML, CSS

Frameworks & Libraries – Spring Boot, Hibernate, JPA, pandas, NumPy, scikit-learn, Flask, FastAPI, React, Angular

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Kubernetes

Databases – PostgreSQL, MySQL, Oracle

Tools & Platforms – Power BI, Tableau, Splunk, Dynatrace, Jira, Confluence

Methodologies – Agile, Scrum, CI/CD

PROJECTS

Enterprise System Integration Dashboard (HCL Technologies)

- Developed a dashboard in **Java Spring Boot** to aggregate operational metrics from multiple enterprise systems, providing a unified view for support teams.
- Integrated data feeds from **PostgreSQL** and Oracle databases using custom Python scripts for ETL, populating the dashboard with key performance indicators.
- Implemented real-time alerting mechanisms based on threshold breaches detected in system logs, reducing incident detection time by approximately **20%**.

Customer Insight Analysis and Reporting (MSc Project)

- Built interactive **Power BI** dashboards to visualize customer purchasing trends and product performance for a retail dataset, translating complex data into actionable business insights.
- Performed data cleaning and transformation using **Power Query** and wrote **DAX** measures to calculate key metrics such as customer lifetime value and average order value.
- Presented findings and dashboard prototypes to academic stakeholders, demonstrating a clear understanding of business intelligence principles and data-driven decision-making.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
