PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and deployed **Java Spring Boot** microservices for e-commerce backend functionalities, processing up to **1,500 requests per minute** during peak hours.
- Engineered **Python ETL pipelines** to ingest and transform customer data from disparate sources into a centralized data warehouse, improving data availability for analytics teams by **40%**.
- Designed and implemented **RESTful APIs** for cross-system integrations, enabling seamless data exchange between online trading platforms and operational fulfillment systems.
- Collaborated with cross-functional teams to analyse customer behaviour and identify opportunities for improvement in **website and app performance**, contributing to a **15% uplift** in user engagement metrics.
- Supported the analysis of **customer journey optimisation** initiatives, translating business requirements into actionable technical specifications for development teams.
- Managed the end-to-end deployment of new features and bug fixes through **Jenkins CI/CD pipelines**, reducing average deployment time by **30%**.
- Containerised **Java applications** using **Docker** and deployed them to **AWS EC2** instances, enhancing scalability and manageability of the online retail platform.

SKILLS

Programming Languages – Java, Python, SQL, R, DAX.

Frameworks & Libraries – Spring Boot, Spring Cloud, pandas, NumPy, scikit-learn, Flask, FastAPI.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux.

Databases – PostgreSQL, MySQL, Oracle.

BI & Analytics Tools – Power BI, Tableau, Power Query, RStudio.

Methodologies – Agile, Scrum.

PROJECTS

E-commerce Platform Data Pipeline (HCL Technologies)

- Developed a **Python-based data pipeline** to aggregate customer interaction data from various online channels, including website clicks and app usage logs, for analytical purposes.
- Implemented data validation and cleaning routines using **pandas**, ensuring data quality for downstream reporting and **customer behaviour analysis** initiatives.
- Automated the pipeline execution using **cron jobs** and integrated it with **AWS S3** for scalable data storage, supporting a team of 5 analysts.

Online Trading Performance Dashboard (MSc Applied Project)

- Built an interactive **Power BI dashboard** to visualize key performance indicators for online trading, including sales volume, conversion rates, and customer acquisition cost.
- Designed **DAX measures** and data models to provide insights into **website and app performance** trends and support data-driven decision-making for business stakeholders.
- Extracted and transformed data from multiple sources using **Power Query**, enabling comprehensive reporting on online business operations.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
