HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs for enterprise systems, handling approximately **1,500 requests per minute** during peak hours.
- Designed and implemented **Hibernate** entities and JPA mappings for complex data models, ensuring data integrity across relational databases.
- Authored **JUnit** and **Mockito** test suites for new Java features, achieving over **90% code coverage** for critical service modules.
- Collaborated with cross-functional teams to refine requirements for sustainability initiatives, translating business needs into actionable technical tasks within **Agile ceremonies**.
- Analyzed and documented performance data for environmental impact projects, identifying opportunities for improvement and presenting findings to project managers.
- Supported the integration of new data sources for sustainability reporting, ensuring adherence to **data quality standards** and regulatory awareness.
- Containerized Java applications using **Docker** and managed deployments on **AWS EC2** instances, improving application portability and deployment speed.

SKILLS

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, Hibernate, JPA, JUnit, Mockito, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

BI & Analytics – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing

Tools & Methodologies – Jira, Confluence, Agile, Scrum, Splunk, Dynatrace

Domain Knowledge – Enterprise Systems Support, Financial Services Operations, Payments Processing, Transaction Monitoring, Regulatory Compliance

PROJECTS

Enterprise Java Application Modernization

- Refactored legacy Java modules into **Spring Boot microservices**, improving system modularity and maintainability for an internal operations dashboard.
- Implemented robust data persistence layers using **Hibernate and PostgreSQL**, managing critical financial transaction data with strict consistency requirements.
- Developed comprehensive RESTful APIs to facilitate data exchange between the modernized services and existing enterprise applications, supporting approximately **1,000 transactions daily**.

Python-based Sustainability Data Aggregation Pipeline

- Developed a Python data pipeline to ingest and aggregate environmental impact data from various sources, including CSV files and database extracts.
- Automated report generation using **pandas** for key sustainability metrics, reducing manual reporting effort by an estimated **30%** for the operations team.
- Integrated the pipeline with an existing data warehousing solution, preparing data for analysis and visualization in **Power BI dashboards**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
