HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs for enterprise systems, handling approximately 800 requests per minute and integrating with PostgreSQL databases.
- Engineered **Python** scripts to automate data extraction and transformation tasks from legacy systems, reducing manual processing time by an average of **30%**.
- Managed production support for critical enterprise applications using **Splunk** and **Dynatrace**, resolving an average of **4** P1/P2 incidents per week within SLA targets.
- Collaborated with cross-functional teams to gather requirements and define technical specifications for new feature development within an Agile Scrum framework.
- Designed and implemented database schema changes and complex SQL queries across **PostgreSQL** and **MySQL** for data validation and reporting needs.
- Containerized multiple Java applications using **Docker** and deployed them to **AWS EC2** instances, improving deployment consistency and reducing setup time by **20%**.
- Contributed to the development of an internal feature store using **Java Spring Boot** and **PostgreSQL**, enabling faster data access for downstream machine learning models.

SKILLS

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, Hibernate, JPA, pandas, NumPy, scikit-learn, Flask, FastAPI

Databases – PostgreSQL, MySQL, Oracle

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Tools & Platforms – Splunk, Dynatrace, Jira, Confluence, Power BI, Tableau

Methodologies – Agile, Scrum, CI/CD

PROJECTS

Java-based Enterprise System Integration Platform

- Developed a suite of **Java Spring Boot** microservices to facilitate data exchange between disparate enterprise systems, including a core ERP module and a customer relationship management platform.
- Implemented robust error handling and retry mechanisms using libraries like Resilience4j, ensuring **99.5%** availability for critical data synchronization workflows.
- Integrated with **PostgreSQL** for persistent storage of integration logs and configuration data, supporting ad-hoc querying for troubleshooting and audit purposes.

Python ETL Pipeline for Operational Reporting

- Engineered an automated **Python** ETL pipeline using **pandas** to extract, transform, and load data from multiple sources into a centralized data warehouse for business intelligence reporting.
- Designed and implemented data quality checks within the pipeline, identifying and flagging approximately **15%** of records with inconsistencies before ingestion.
- Scheduled and monitored pipeline execution using **Jenkins**, generating daily operational reports that provided key performance indicators to the finance and operations teams.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
