PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Monitored **UCITS risk and investment limits**, including global exposure and counterparty exposure, investigating and escalating exceptions by analyzing data from delegate reports.
- Managed the **incident and error log**, performing root cause analysis for P1 and P2 incidents impacting operational risk and tracking remediation efforts.
- Prepared **risk reports and papers** for the Risk Committee and the Delegate Oversight Committee, summarizing key risk indicators (KRIs) and control self-assessments.
- Ran and documented **liquidity risk monitoring** and stress testing exercises, identifying potential shortfalls and reporting findings to senior risk management.
- Reconciled **EMIR reporting** data, identifying and following up on exceptions with delegates to ensure regulatory compliance.
- Supported third-party **operational resilience** workstreams, including contributing to business continuity testing and DORA compliance documentation.
- Designed and implemented **Python scripts** to automate data extraction and aggregation from various sources for risk analysis, reducing manual effort by approximately **30%**.

SKILLS

Risk Management – UCITS, Fund Risk, Operational Risk, Investment Limits, Counterparty Exposure, Liquidity Risk, EMIR Reporting, DORA, Business Continuity Testing, Risk Register, KRIs, Control Self-Assessments

Data Analysis & Reporting – Excel, Data Analysis, Risk Reporting, Committee Papers, Data Aggregation, Data Extraction, Statistical Methods

Programming & Scripting – Python, SQL

Tools & Platforms – Power BI, Splunk, Dynatrace, Jira, Confluence, AWS, Linux

Financial Services – Asset Management, Fund Administrators, Depositaries, UCITS Management Company, Service Provider Oversight, Delegate Management, SLA Monitoring

PROJECTS

Operational Risk Monitoring Dashboard (HCL Technologies)

- Developed a **Python-based data aggregation service** to ingest transaction and operational data from multiple sources, forming the backend for an internal risk dashboard.
- Built interactive dashboards and visualizations using **Power BI** to present key risk indicators and exception alerts to operations teams, enabling faster identification of issues.
- Implemented automated data validation checks and reconciliation workflows within the Python service to ensure data integrity for risk reporting.

Delegate SLA & Exception Tracking System (MSc Project)

- Designed and implemented a **SQL database schema** to store delegate performance data and track Service Level Agreement (SLA) compliance across various service providers.
- Created **Power BI reports** to visualize delegate performance against KPIs, highlighting areas of underperformance and generating alerts for breached SLAs.
- Developed a data model in Power BI to facilitate ad-hoc analysis of delegate performance trends and identify systemic issues.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
