PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed service desk tickets, resolving and escalating issues for end-users across the organization, ensuring timely resolution and adherence to SLAs.
- Administered user access and managed devices using **Entra ID**, **Microsoft 365**, and **Intune**, maintaining security policies and user provisioning workflows.
- Provided support for networks, firewalls, and remote access solutions including **VPN** and **VDI**, troubleshooting connectivity and performance issues.
- Monitored system alerts and maintained up-to-date support documentation, contributing to a knowledge base for common issues and resolutions.
- Participated in weekly **SOC calls** to discuss security incidents and proactively ran **phishing simulations** to assess and improve user awareness.
- Maintained the IT asset register, tracking hardware and software inventory, and provided support for internal and external audits.
- Analyzed system logs and utilized **Splunk** and **CloudWatch** for troubleshooting production issues on enterprise applications, reducing incident resolution time by an average of **18%**.

SKILLS

Operating Systems – Linux, Windows

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Programming Languages – Java, Python, SQL

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Databases – PostgreSQL, MySQL, Oracle

DevOps & CI/CD – Docker, Jenkins, Git

Support & Monitoring Tools – Splunk, Dynatrace, Jira, Confluence

PROJECTS

Enterprise Application Support Enhancement

- Enhanced production support for enterprise Java/.NET applications by developing **Python automation scripts** to streamline log analysis and alert correlation, reducing manual triage effort by **30%**.
- Implemented real-time monitoring dashboards using **Splunk** to visualize key performance indicators and system health for critical business applications, enabling faster detection of operational anomalies.
- Collaborated with cross-functional operations teams to define and refine incident response procedures, improving communication and coordination during P1/P2 escalations.

Financial Services Dashboard Performance Optimization

- Optimized **SQL queries** (PostgreSQL, Oracle) and database indexing strategies for a payments operations dashboard, improving report generation times by an average of **22%** for the financial services client.
- Developed **Java Spring Boot** microservices to process and enrich transaction data, contributing to the operational alerting system for failed payment messages within a regulated production environment.
- Authored comprehensive production runbooks and documentation for the payments dashboard, supporting change management processes and facilitating smoother post-go-live triages.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
