HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed the end-to-end lifecycle of database replication and Change Data Capture (CDC) pipelines using **Oracle GoldenGate**, ensuring data consistency across distributed systems.
- Developed and maintained robust database replication strategies, implementing **change data capture** mechanisms to support near real-time data synchronization for critical business processes.
- Configured and optimized **Oracle GoldenGate** instances for high-volume transaction data, focusing on performance tuning and resource utilization to meet stringent SLAs.
- Collaborated with cross-functional teams to gather requirements for database platform enhancements, translating business needs into technical specifications for replication solutions.
- Designed and implemented database schema changes and data migration strategies, coordinating with application development teams to minimize disruption during updates.
- Supported production database environments, responding to incidents and performing root cause analysis for replication failures or performance degradation, maintaining **operational stability**.
- Containerized database replication components using **Docker** and orchestrated deployments within a cloud environment, contributing to the team's CI/CD practices.

SKILLS

Database Technologies – Oracle GoldenGate, PostgreSQL, MySQL, Oracle, SQL, Database Replication, Change Data Capture (CDC), Data Warehousing, Data Modelling

Cloud & DevOps – AWS, Azure, Terraform, Docker, Kubernetes, CI/CD, Jenkins, Git, Linux

Programming & Scripting – Java, Python, Spring Boot, REST APIs, Shell Scripting

Observability & Monitoring – Splunk, CloudWatch, Dynatrace

Tools & Methodologies – Jira, Confluence, Agile, Scrum

PROJECTS

Oracle GoldenGate Replication Platform Enhancement

- Engineered a scalable data replication solution using **Oracle GoldenGate** to synchronize transactional data between on-premises databases and a cloud-based data lake, handling approximately **15,000 transactions per hour**.
- Implemented robust error handling and automated recovery mechanisms for the replication streams, reducing manual intervention by **40%** and improving overall pipeline reliability.
- Developed monitoring dashboards in **Splunk** to track replication latency, data drift, and system health, enabling proactive identification of potential issues for the operations team.

Automated Database Schema Change Deployment

- Developed Python scripts to automate the deployment of database schema changes across multiple environments, integrating with **Jenkins** for CI/CD pipeline execution.
- Managed database configuration updates and executed UAT coordination for system integrations, ensuring seamless transitions for interconnected enterprise business systems.
- Authored comprehensive runbooks and documentation for database change management processes, facilitating smoother change control procedures for the support team.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
