PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Owned client projects end-to-end, from discovery and solution design through to implementation, validation, and handover, ensuring delivery against acceptance criteria for cloud and infrastructure deployments.
- Designed and implemented secure network infrastructure including firewalls, switching, VLANs, routing, and VPNs to establish reliable and secure remote connectivity for enterprise clients.
- Managed multiple workstreams concurrently, troubleshooting methodical issues and delivering solutions with minimal supervision across Azure, Microsoft 365, and hybrid identity environments.
- Led technical discovery sessions with clients, clearly communicating technical options, project risks, and progress updates to stakeholders, facilitating informed decision-making.
- Completed client knowledge transfer sessions and structured handover documentation to service delivery and support teams, ensuring smooth post-implementation operations.
- Developed PowerShell scripts to automate routine tasks for Azure resource provisioning and Microsoft 365 tenant configuration, reducing manual effort by approximately 18%.
- Containerized backend services using **Docker** and deployed them to a managed Kubernetes cluster on **Azure Kubernetes Service (AKS)**, configuring resource limits and basic monitoring.

SKILLS

Cloud Platforms – Microsoft Azure, Azure Compute, Azure Networking, Azure Identity, Azure Storage, Azure Backup, Azure Migration, Hybrid Environments

Endpoint Management – Microsoft Intune, Device Enrolment, Compliance Policies, Configuration Profiles, Application Deployment, Security Baselines

Microsoft 365 & Identity – Microsoft 365, Entra ID, Active Directory, Group Policy, Windows Server, DNS, DHCP

Networking – TCP/IP, Subnetting, VLANs, Switching, Routing, Firewalls, VPNs, Wi-Fi

Automation & Scripting – PowerShell, Bash Scripting

Containerization & Orchestration – Docker, Kubernetes, Azure Kubernetes Service (AKS)

Project Delivery – Discovery, Solution Design, Implementation, Testing, Documentation, Handover, Risk Management, Stakeholder Communication

PROJECTS

Azure Infrastructure Deployment for Enterprise Client

- Designed and deployed a secure Azure infrastructure for a financial services client, including virtual networks, subnets, NSGs, and Azure Firewall to meet strict compliance requirements.
- Implemented hybrid identity solutions by configuring Entra ID Connect and Group Policies to synchronize on-premises Active Directory with Azure AD for seamless user authentication across environments.
- Developed a comprehensive handover document detailing the implemented infrastructure, security configurations, and operational procedures for the client's internal support team.

Automated Endpoint Management with Intune and PowerShell

- Engineered a PowerShell automation framework to streamline the deployment and configuration of **Microsoft Intune** policies for a fleet of 300+ Windows endpoints, ensuring consistent security baselines.
- Developed custom scripts to automate application packaging and deployment via Intune, reducing the manual deployment time for new software by an average of 40% per application.
- Created detailed runbooks and conducted training sessions for the client's IT support staff on managing and troubleshooting Intune-enrolled devices.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
