PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and deployed automation Stories in customer Tines tenants, connecting disparate tools via their APIs to streamline core operational workflows.
- Scoped automation Stories based on detailed customer requirements, identifying technical blockers and defining necessary research areas for successful implementation.
- Analyzed customer tools and processes to guide them in establishing a tailored automation roadmap, highlighting suitable use cases for workflow automation.
- Demonstrated Tines Stories and workflows to customers, including live wire-framing of solutions during calls to illustrate concepts and potential benefits.
- Collaborated with Project Managers and Engagement Managers to verify project plans, timelines, and ensure alignment with predefined success criteria for client implementations.
- Reviewed and suggested optimizations for customer-built Stories and workflows, enhancing efficiency and maintainability for long-term customer success.
- Containerized a Java Spring Boot microservice for internal tooling using **Docker**, deploying it to an **AWS EC2** instance managed via **Jenkins** pipelines for automated build and deployment.

SKILLS

Automation Platforms – Tines

API Integration – API Documentation, OAuth2, JWT, REST APIs

Workflow Design – Requirements Gathering, Process Analysis, Automation Roadmapping, Workflow Optimization

Customer Engagement – Customer-Facing Skills, Demos, Technical Authority, Stakeholder Alignment

Programming Languages – Java, Python, SQL

Cloud & DevOps – AWS, Docker, Jenkins

PROJECTS

Customer Workflow Automation Pilot (HCL Technologies)

- Built automated workflows for a financial-services client using **Java Spring Boot** and **SQL** to process transaction messages, reducing manual intervention by approximately **40%**.
- Integrated with multiple enterprise systems via **REST APIs** to create end-to-end automation for reconciliation processes, ensuring data consistency across platforms.
- Developed **Python** scripts for data validation and ETL tasks within the automation framework, supporting the ingestion of data from various sources for processing.

Internal Operations Dashboard Enhancement (HCL Technologies)

- Developed and maintained **Java** backend services for an internal operations dashboard, focusing on feature enhancements and bug fixes to improve user experience.
- Wrote complex **SQL** queries against **PostgreSQL** and **Oracle** databases to extract and aggregate data for operational reporting, supporting a team of 5 analysts.
- Implemented monitoring and alerting using **Splunk** and **CloudWatch**, contributing to a **15%** reduction in critical incident response time for the supported applications.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
