PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **data-driven solutions** for infrastructure and real estate clients, translating complex business requirements into actionable analytics dashboards and reports.
- Developed **technical specifications and design documents** for end-to-end data processes, including functional and non-functional requirements, ensuring alignment with client objectives.
- Contributed to **business development activities** by identifying client needs and translating technical expertise into compelling proposals and bid preparations for new opportunities.
- Managed key client engagements, providing **technical delivery and assurance** for data analytics projects, ensuring successful project outcomes and client satisfaction.
- Collaborated with clients and internal business units to **drive insights and performance** through the design and delivery of bespoke data analytics solutions.
- Mentored and guided junior team members on best practices in data analytics, **fostering an inclusive team culture** focused on service excellence and high performance.
- Containerized data analytics applications using **Docker** and deployed them to **AWS EC2** instances, managing infrastructure and ensuring reliable service delivery.

SKILLS

Business Intelligence Tools – Power BI, Tableau, QlikView, Excel

Programming Languages – Python, R, SQL

Cloud Platforms – Azure, AWS (Databricks, SQL, Logic Apps, Key Vault, ADF, ADLS)

Development Methodologies – CI/CD, Azure DevOps, GitHub

Data Concepts – Data Warehousing, Data Modelling, ETL, Master Data Management

Microsoft Ecosystem – Power Platform, Microsoft Fabric

Infrastructure Concepts – IaaS, PaaS, SaaS

PROJECTS

Client Infrastructure Analytics Platform (HCL Technologies)

- Developed a **Power BI** dashboard suite to visualize project status, cost controls, and resource allocation for a major infrastructure client, enabling real-time performance monitoring.
- Engineered **Python** scripts for data extraction, transformation, and loading (ETL) from disparate project management systems into a centralized data warehouse, improving data consistency by **30%**.
- Designed and implemented **data models** within Power BI to support complex analytical queries and reporting, enhancing the ability to derive actionable insights from project data.

Real Estate Portfolio Performance Dashboard (HCL Technologies)

- Created interactive **Tableau** dashboards to present key performance indicators for a real estate portfolio, including occupancy rates, rental yields, and market trends.
- Applied **DAX** measures and Power Query transformations to refine data for accurate reporting and analysis, reducing data preparation time by **20%**.
- Collaborated with business stakeholders to gather requirements and ensure the dashboard effectively met their analytical needs for strategic decision-making.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
