PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Resolved complex customer issues by debugging server-side **Java** and **Python** code, ensuring seamless platform functionality for enterprise clients.
- Developed and maintained **REST APIs** using **Spring Boot** to facilitate data exchange between internal services and customer-facing applications.
- Authored comprehensive **runbooks** and troubleshooting guides for production systems, reducing average incident resolution time by **18%**.
- Provided technical guidance and support to customers and partners on the use of Twilio's **APIs** and **SDKs**, acting as a subject matter expert.
- Collaborated with **Product and Engineering teams** via Slack and Jira to report reproducible bugs and provide customer feedback for product improvements.
- Troubleshot and resolved **Quality of Service (QoS)** issues, including network connectivity problems related to **TCP/UDP** and **SSL/TLS**.
- Containerized existing Java applications using **Docker** for consistent deployment across development and production environments on **AWS EC2**.

SKILLS

Programming Languages – Java, Python, JavaScript, SQL

Frameworks & Libraries – Spring Boot, Node.js, React.js, pandas, NumPy, scikit-learn

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Protocols & APIs – HTTP, RESTful Services, TCP/UDP, SSL/TLS, SIP, VoIP

Databases – PostgreSQL, MySQL, Oracle

Tools & Platforms – Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau

Concepts – Object-Oriented Programming (OOP), Quality of Service (QoS), API Integration, CI/CD

PROJECTS

Enterprise Java Application Support & Enhancement

- Provided production support for critical enterprise **Java** applications, managing SLAs and responding to P1/P2 incidents using **Splunk** and **Dynatrace**.
- Developed and deployed new features for existing **Spring Boot** microservices, including the implementation of new **REST APIs** for enhanced system integration.
- Automated routine data validation tasks and report generation using **Python** scripts, improving operational efficiency for the financial services dashboard team.

Customer Onboarding Automation with Python

- Engineered **Python** scripts to automate parts of the customer onboarding process for a financial services operations dashboard, reducing manual effort by **~30%**.
- Designed and implemented data extraction and transformation pipelines using **SQL** and **pandas** to prepare client data for ingestion into the platform.
- Collaborated with business analysts to gather requirements for new dashboard features, ensuring alignment with customer operational needs and data integrity.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
