PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Assisted the Commercial Team with the **rollout of new systems**, ensuring smooth adoption and effective integration into existing workflows.
- Performed **dual data and system maintenance** during the transition phase to ensure accuracy, consistency, and operational continuity, managing data across legacy and new platforms.
- Input, reviewed, and validated **product, pricing, and commercial data** across systems, maintaining high data integrity standards.
- Monitored system behaviour, identified potential issues or discrepancies in **financial and nonfinancial data**, and escalated to the relevant teams for resolution.
- Provided guidance and day-to-day support to internal stakeholders using the new system, contributing to **user adoption and training assistance**.
- Maintained clear documentation of system changes, processes, and commercial inputs to support **audit trails** and future optimisation efforts.
- Collaborated with IT, Operations, and other internal teams to support successful system deployment and ensure alignment across functions, contributing to **continuous improvement** of system workflows.

SKILLS

System Implementation – LDR system rollout, dual maintenance, data validation, issue identification, user support, documentation, process tracking, cross-functional collaboration, reporting, insights, continuous improvement.

Data Analysis – Financial data analysis, nonfinancial data analysis, data entry, data review, data validation, data consistency, data accuracy, status updates, data summaries.

Core Applications – SAP, Excel, PowerPoint, MS Word.

System Support – Stakeholder support, operational continuity, issue escalation, system changes, commercial procedures.

Communication & Collaboration – Written communication, verbal communication, relationship building, cross-functional collaboration, stakeholder engagement.

PROJECTS

ERP Data Migration and Validation Project

- Executed a comprehensive data migration from legacy systems to a new **ERP platform**, involving the transfer of over 50,000 product and pricing records.
- Developed and implemented a series of **SQL validation scripts** to ensure data accuracy and consistency post-migration, identifying and rectifying discrepancies impacting commercial operations.
- Collaborated with business analysts and operations teams to define data requirements and successfully completed User Acceptance Testing (UAT) for the migrated datasets.

Commercial Operations Dashboard Development

- Designed and built an interactive **Power BI dashboard** to visualize key commercial metrics, including sales performance, pricing variations, and inventory levels.
- Utilised **DAX measures** and Power Query to transform and aggregate data from multiple sources, providing actionable insights to the commercial team.
- Published and maintained the dashboard, delivering regular status updates and data summaries that informed strategic decision-making and process optimisation.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
