PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Coordinated with engineers and customers to schedule service visits and callouts, monitoring and reporting on completion status for field equipment repairs.
- Processed service orders and managed customer invoices, liaising with Finance to resolve billing queries and proactively communicating job progress to clients.
- Maintained accurate equipment lists for customers, identifying and informing them of End-of-Life products to facilitate sales of replacement equipment.
- Provided timely and professional quotations to customers, securing purchase orders for service repairs and coordinating necessary repairs with manufacturers.
- Updated supplier and customer systems, including **Salesforce**, with logged actuals for repairs, inspections, and contract-based callouts.
- Managed service contract SLAs for each customer, ensuring adherence to agreed-upon service levels and reporting periodically on contract performance.
- Containerized existing enterprise Java applications using **Docker** for deployment to a managed AWS environment, improving deployment consistency across development and production.

SKILLS

Customer Support – Service Order Processing, Quotation Management, Invoice Resolution, SLA Coordination, Customer Communication, Technical Services Liaison

ERP & Systems – MS Business Central, ERP Service Module, Salesforce, Purchase Order Processing, Data Entry, System Updates

IT Administration – Excel, IT Computing Skills, Administrative Skills, Organizational Skills, Attention to Detail, Prioritization

Communication & Teamwork – Verbal Communication, Written Communication, Interpersonal Skills, Initiative, Team Environment Contribution, Flexible Approach

Software Development – Java, Spring Boot, REST APIs, Docker, AWS (EC2, S3, CloudWatch), Jenkins, Git

PROJECTS

Field Service Operations Dashboard Enhancement

- Developed Java Spring Boot microservices to manage service job scheduling and engineer dispatch, integrating with an existing **Oracle** database.
- Built automated reporting features using **Python** scripts to track service contract performance and SLA adherence for key enterprise accounts.
- Implemented RESTful APIs for real-time status updates between the dashboard and field engineer mobile applications, ensuring data consistency.

Customer Equipment Lifecycle Management System

- Designed and implemented a system using **Java** and **PostgreSQL** to track customer equipment inventory, including warranty status and End-of-Life dates.
- Created administrative interfaces for updating equipment details and generating customer notifications, improving communication for proactive sales outreach.
- Integrated with an internal CRM system via **REST APIs** to synchronize customer and equipment data, supporting sales team efforts.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
