HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Assisted in the configuration and validation of **medication management workflows** within MEDITECH Expanse, collaborating with analysts and operational leaders to ensure alignment with clinical/financial integrity requirements.
- Participated in **testing activities** for Medication Management modules, including integrated testing and user acceptance testing (UAT), identifying and troubleshooting issues in collaboration with IT, finance, and clinical teams.
- Supported the integration of **medication management modules** with other clinical systems, ensuring seamless care delivery and documentation across platforms like Physician Care Manager and laboratory systems.
- Developed Python scripts to automate data extraction and transformation tasks for **operational reporting**, reducing manual effort by approximately 15 hours per week for the financial operations dashboard team.
- Managed production incidents for enterprise Java/.NET applications, performing root cause analysis using **Splunk and Dynatrace** data and implementing fixes within strict SLA parameters.
- Designed and implemented REST APIs using **Java Spring Boot** for cross-service data exchange, enhancing the functionality of an internal feature store by enabling real-time data retrieval for downstream applications.
- Containerized Java Spring Boot applications using **Docker** and deployed them to an AWS EKS cluster, configuring basic resource limits and enabling smoother rolling updates.

SKILLS

EHR Systems – MEDITECH Expanse, Cúram

Healthcare IT – Medication Management, Clinical Documentation, Interdisciplinary Care Models, Clinical Integrity, Healthcare Reporting, HIQA Compliance

Core Development – Java, Spring Boot, Python, REST APIs, SQL, PostgreSQL, MySQL, Oracle, Hibernate, JPA

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux

Data & Analytics – Power BI, Tableau, DAX, Power Query, pandas, NumPy, scikit-learn, Data Modelling, ETL

Project Management – Agile, Scrum, Jira, Confluence, Change Management, Stakeholder Engagement, UAT, Reporting

PROJECTS

EHR System Workflow Automation (HCL Technologies)

- Developed Python scripts to automate the validation of **medication management data** feeds into an enterprise reporting system, reducing manual validation time by 20% and improving data accuracy.
- Created **Power BI dashboards** to visualize key performance indicators for the financial services operations dashboard, enabling stakeholders to monitor transaction flows and identify bottlenecks more effectively.
- Collaborated with business analysts to document and refine requirements for a new **transaction monitoring** feature, ensuring alignment between technical implementation and operational needs.

Clinical Data Integration Service (MSc Project)

- Designed and implemented a **Java Spring Boot service** to integrate disparate clinical data sources, supporting the ingestion of patient medication data from simulated hospital systems.
- Built **REST APIs** for querying integrated medication data, enabling downstream analytics and reporting applications to access a unified view of patient treatment information.
- Wrote unit and integration tests using **JUnit**, achieving 85% code coverage to ensure the reliability of the data integration service.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
