PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Supported EHR system build activities for the Materials Management Pharmacy workstream, focusing on data preparation and validation under senior analyst guidance.
- Entered, updated, and maintained pharmacy item and drug catalogue data within approved build tools and configuration workbooks, ensuring adherence to standards.
- Performed high-volume data entry for pharmacy records, comparing source information against entered data and correcting discrepancies to maintain accuracy.
- Completed data clean-up, standardisation, and de-duplication tasks for pharmacy item records, identifying and resolving inconsistencies before submission for review.
- Maintained detailed status reports for assigned build and data tasks, clearly outlining completed work, outstanding items, and identified issues.
- Collaborated with pharmacy and materials management team members to establish accurate drug catalogue information within the EHR system.
- Developed Python scripts to automate data validation checks and generate summary reports for assigned data entry tasks, reducing manual review time by approximately **15%**.

SKILLS

EHR Systems – MEDITECH Expanse, Cúram

Data Management – Data Entry, Data Validation, Data Clean-up, Data Standardisation, De-duplication, Catalogue Maintenance

Pharmacy & Materials – Pharmacy Item Information, Drug Catalogues, Medication Terminology, Units of Measure, Pack Size, Inventory Information

Tools & Technologies – Microsoft Excel, Spreadsheets, Filters, Lists, Structured Data Templates, Python, Jira, Confluence

Project Support – EHR Build Activities, Documentation, Issue Follow-up, Progress Reporting, Quality Control Processes, Naming Conventions

PROJECTS

Pharmacy Data Harmonisation for EHR Implementation

- Standardised and entered pharmacy item and drug catalogue data from multiple disparate sources into a unified template for EHR system ingestion.
- Validated approximately 5,000 pharmacy item records against established naming conventions and data standards, identifying and correcting over **200** discrepancies.
- Developed a Python script to cross-reference entered data against source documents, flagging potential errors for manual review and ensuring data integrity.

Materials Management Data Preparation with Python

- Assisted in preparing structured data for a materials management system implementation, focusing on item descriptions, identifiers, and units of measure.
- Automated the process of formatting and validating input data using Python and pandas, reducing manual data manipulation time by an estimated **20%**.
- Documented data mapping rules and validation procedures to support consistent data entry and quality assurance across the project team.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
