PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Configured and maintained payment calculations within proprietary systems for CLO transactions, processing data for over **1,500** client portfolios.
- Received, mapped, validated, and reconciled periodic collateral data from multiple sources, identifying and resolving data exceptions to ensure accuracy for investor reporting.
- Reviewed and interpreted trust indentures for complex CLO transactions to determine specific reporting requirements and develop technical reporting specifications for the analytics team.
- Built strong partnerships with Relationship Management and Deal Administration teams to support client deliverables, enhancing operational efficiency by streamlining data handover processes.
- Calculated portfolio statistics, ratios, and thresholds for hypothetical trading scenarios and periodic reporting, supporting strategic decision-making for senior management.
- Utilised **SQL** and other analytical tools to manage and interpret large volumes of collateral-related data, supporting the CLO Analytics Team's client-facing responsibilities.
- Managed ongoing transaction deliverables including CLO waterfalls and investor reporting, ensuring timely and accurate submission to clients and internal stakeholders.

SKILLS

Financial Services – Collateralised Loan Obligations (CLOs), Syndicated Bank Loans, Fixed Income Securities, Securitisation, Debt Capital Markets, Investor Reporting, Transaction Processing

Data Analysis & Reporting – SQL, Microsoft Excel, Data Validation, Data Reconciliation, Data Interpretation, Portfolio Statistics, Ratio Analysis, Threshold Calculation

Tools & Technologies – Proprietary Systems, Analytical Tools, Relational Databases

Project Management & Collaboration – Client Deliverables, Operational Efficiency, Stakeholder Management, Relationship Management, Deal Administration, Business Partners

Documentation & Compliance – Trust Indentures, Reporting Requirements, Technical Specifications, Regulatory Awareness

PROJECTS

CLO Transaction Data Management System

- Developed a Python-based system to ingest and validate collateral data for CLO transactions, processing an average of **50,000** records per reporting cycle.
- Implemented automated data reconciliation checks using **SQL** queries against historical data, reducing manual validation effort by approximately **30%**.
- Configured the system to generate standardized reporting outputs compatible with proprietary U.S. Bank systems and investor requirements.

Financial Reporting Automation with Excel & SQL

- Automated the generation of key financial reports for CLO transactions using advanced **Microsoft Excel** functions and **SQL** stored procedures.
- Designed and implemented dynamic dashboards in Excel to visualize portfolio statistics and key ratios for client review, improving data accessibility for stakeholders.
- Collaborated with the Relationship Management team to refine report templates based on client feedback, ensuring alignment with their analytical needs.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
