PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided technical support to enterprise customers via email and screen sharing, resolving complex issues and ensuring adherence to service level agreements.
- Developed a deep understanding of cloud platform capabilities, integrations, and configurations to effectively troubleshoot customer environments.
- Owned and resolved escalated customer technical issues, partnering with Technical Support Specialists to deliver timely solutions and maintain high customer satisfaction.
- Documented troubleshooting steps and identified recurring technical patterns within the Support CRM, contributing to proactive issue resolution and knowledge base expansion.
- Collaborated with Product and Engineering teams to create reproducible test cases for identified bugs, validating fixes and improving platform stability.
- Authored internal and customer-facing documentation, including troubleshooting guides and best practices, to enhance customer education and self-service capabilities.
- Acted as a trusted technical point of contact for assigned Premium Support customers, delivering high-touch service and ensuring enhanced SLA adherence.

SKILLS

Cloud Providers – AWS, Azure, GCP

Operating Systems – Linux, Windows, macOS

Databases – SQL, PostgreSQL, MySQL, Oracle, MongoDB

APIs & Networking – REST, GraphQL, Networking Fundamentals

IAM & Identity – SAML, OAuth, SCIM, Okta, O365

Monitoring & Logging – Datadog, Splunk, Dynatrace, CloudWatch

PROJECTS

Enterprise Application Support & Incident Resolution

- Managed production support for critical enterprise Java applications, responding to P1/P2 incidents and ensuring adherence to strict SLAs using **Splunk** and **Dynatrace** for monitoring.
- Automated data validation and reporting tasks using **Python scripting**, reducing manual effort for operational teams by approximately **15%**.
- Executed SQL queries across **PostgreSQL** and **Oracle** databases for data analysis, defect investigation, and schema change validation in production environments.

Customer Integration & API Troubleshooting

- Developed and maintained **Java Spring Boot** REST APIs for cross-system integrations, ensuring seamless data flow between interconnected enterprise platforms.
- Troubleshot complex integration issues between customer systems and internal platforms by analyzing API request/response logs and database interactions.
- Contributed to the CI/CD pipeline using **Jenkins** and **Git**, ensuring reliable and repeatable deployments of updated application services.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
