PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Administered and supported on-premises **Microsoft Exchange** environments, managing mailboxes, distribution groups, and public folders across multiple servers.
- Managed mail flow, transport rules, and email security policies using **Exchange Online Protection (EOP)** and on-premises Exchange, resolving complex routing and delivery issues.
- Performed routine maintenance, patching, and system updates for **Exchange Server** infrastructure, ensuring system stability and security compliance.
- Troubleshot email delivery, mail flow, transport, routing, and queue issues within hybrid Exchange environments, reducing average ticket resolution time by **18%**.
- Supported email archiving, backup, and recovery operations for enterprise mailboxes, ensuring data integrity and adherence to retention policies.
- Assisted with migrations to **Exchange Online**, coordinating with stakeholders and managing user mailboxes to ensure a smooth transition with minimal disruption.
- Configured and maintained **Microsoft 365** tenant settings, including security policies and user access controls, for an organization of over 500 users.

SKILLS

Exchange Administration – Exchange Server, Exchange Online, Exchange Online Protection (EOP), Mailboxes, DAGs, Distribution Groups, Public Folders, Mail Flow, Transport Rules, Email Security

Microsoft 365 – Exchange Online, Microsoft Teams, SharePoint Online, Azure AD

Cloud Platforms – AWS (EC2, S3, CloudWatch)

Scripting & Automation – PowerShell, Python

Operating Systems – Linux, Windows Server

Databases – SQL (PostgreSQL, MySQL, Oracle)

CI/CD & Version Control – Jenkins, Git

PROJECTS

Hybrid Exchange Server Migration and Optimization

- Executed a phased migration of **500+ user mailboxes** from on-premises Exchange 2016 to Exchange Online, ensuring data integrity and minimal downtime.
- Configured and managed **Exchange Online Protection (EOP)** policies, including anti-spam, anti-malware, and transport rules, to enhance email security and reduce phishing attempts by an estimated **30%**.
- Developed PowerShell scripts to automate mailbox provisioning, de-provisioning, and migration tasks, reducing manual effort by approximately **40%**.

Enterprise Messaging Security Hardening

- Implemented and maintained robust mail flow and transport rules within a hybrid **Microsoft Exchange** environment to enforce organizational policies and compliance requirements.
- Performed regular security audits and updates for **Exchange Server** and **EOP**, addressing vulnerabilities and patching systems to maintain a secure messaging infrastructure.
- Documented troubleshooting procedures for common mail delivery and queue issues, creating runbooks that reduced incident response time for the support team by **15%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
